A18575TSB	28-31	Straight backed - Light Tan	Price Ea.	\$ 79.95

COUPE

IMPORTANT!!!!

It is important when fitting sheet metal to your car to FIRST fit before painting or drilling any holes. Many times it is necessary to use C-Clamps, vise grips or a pin to locate holes for alignment.

In order to secure a proper fit and alignment, it is normally necessary to loosen all attaching sheet metal parts. Some reworking may be necessary as mating parts may come from different suppliers or new parts versus 50 year old parts are placed together.

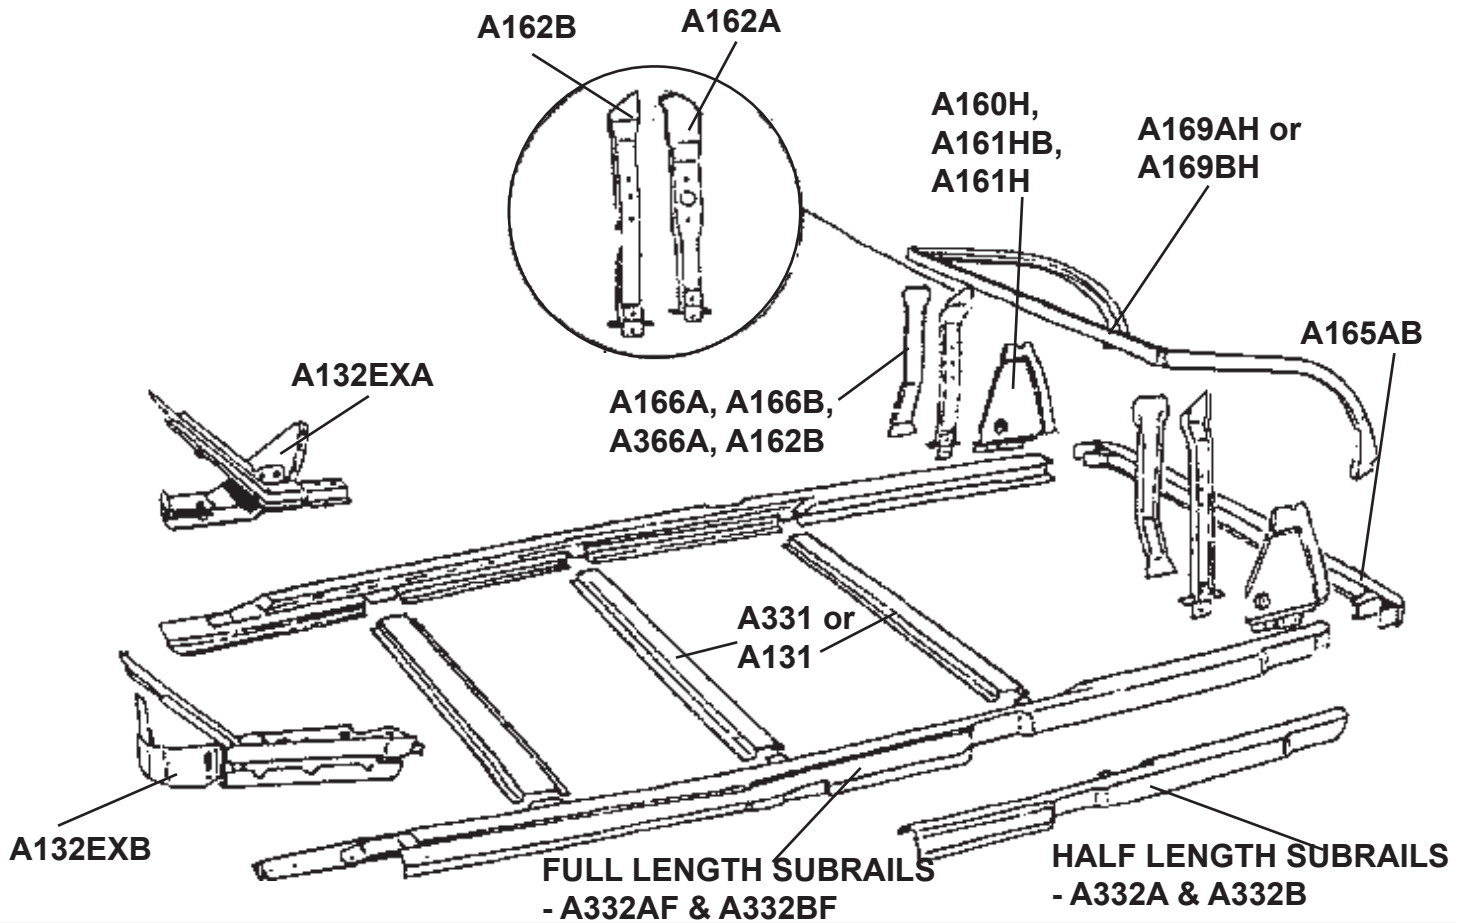

Some metal parts may have been treated with oil or many still have residue from forming oils. It is necessary to thoroughly clean the metal with a metal prep or solution to remove all oils and/or fingerprints before painting.

NO REWORKED OR PAINTED PARTS ARE ACCEPTABLE FOR RETURN.

Mike's "A" FORD-ABLE Parts

Wood

Welcome to Mike's Wood Section. We have a complete selection of wood available for all Coupes, made out of the finest wood available. Each Piece is custom made to fit exactly like it was originally made using top quality hardwoods - oak, ash or poplar. We do not stock these items, they will be shipped directly from the manufacturer - separate shipping charges will apply.

UNFORTUNATELY DUE TO THE AMOUNT OF RETURNS INDIVIDUAL WOOD PIECES ARE NO LONGER AVAILABLE.

***** MIKE'S TIPS *****

If you are having a problem with your Doors, or your Hood will not line up with your Radiator Shell and Cowl - additional Shimming is required, usually under the cowl section. Align the hood first, then work back.

Top Wood - All of the wood from the top of the doors up.

Ribs - These go across the roof and support the top.

Belt Rail - Around the edge of the body where the top meets the body.

Body Wood - Structural Wood inside the body - Does NOT include Chassis wood, Belt Rail or Door wood, unless specified.

Headers - Wood above the windshield - Always included in the Top Wood Kits.

Coupe Body Mount Blocks

If your car has wooden sub rails, you don't need these! They go between the steel sub rails and the frame. Complete set per car. Don't forget to order your body block pads A5000P, A5001P and/or Cowl Shims A5002P.

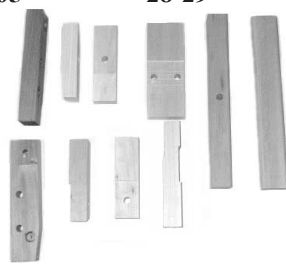

Instructions are included.

A1449	28-31	Price Ea.	\$ 1.65
-------	-------	-----------	---------

COUPE

Rear Fenders & Brackets

As front fenders are generic to all Model A's they are still in there own Section - See Page Gen. 199 & Gen. 200 For Front Fenders

Open and Closed Cab Rear Fenders Please read carefully before purchase.

Fiberglass Fenders - A complete line of fiberglass fenders are available. These are all hand laminated with fiberglass matte and special resins to achieve the optimum in strength.

Please Note: Additional shipping will apply due to large boxes. These are special orders, please allow three to four weeks for delivery. Rear fenders will be shipped by courier and are charged according to the box size.

Steel Fenders - It is important when fitting sheet metal to your car to FIRST fit before painting or drilling any holes. Many times it is necessary to use C-Clamps, vise grips or a drift pin to locate holes for alignment. In order to secure a proper fit and alignment, it is normally necessary to loosen all attaching sheet metal parts. Some reworking may be necessary as mating parts many come from different suppliers or new parts versus 80 year old parts are placed together. Some metal parts may have been treated with oil or may still have residue from forming oils. It is necessary to thoroughly clean the metal with a metal prep or solution to remove all oils and / or fingerprints before painting.

NO RE-WORKED, RUSTED OR PAINTED FENDERS ARE ACCEPTABLE FOR RETURN.

Coupe Rear Fiberglass Fenders:

1928 - 1929

F16161A	Left	Price Ea.	\$ 199.00
F16160A	Right	Price Ea.	\$ 199.00

1930 - Early 1931

F16161B	Left	Price Ea.	\$ 199.00

Coupe Windshields & Parts

Coupe Windshield Frame

These windshield frames are good aluminum reproductions of the originals. They come with frame gasket Only. Hinge gasket may be needed. 1928-1931 Coupes.

A45410AR	28-29 16 1/4" High	Price Ea.	\$ 180.00
A45410A	30-31 16 1/4" High	Price Ea.	\$ 180.00

Show Quality Coupe Steel Un-Finished Windshield Frame

This top quality frame comes with the correct swing arm brackets, frame gaskets, and assembly tools. **Right Hand**

drive is available upon request. Some sanding required.

28-5410U	28-29	Price Ea.	\$ 445.00
30-5410U	30-31	Price Ea.	\$ 445.00

Closed Car Windshield Frame Screws

When you need to replace the glass in your windshield you should take this opportunity to replace the screws in your windshield frame.

#47	28-31	Price Set/8	\$ 2.00
-----	-------	-------------	---------

Closed Car Windshield Frame Gasket

This gasket goes on the bottom (put in first) and sides of the steel windshield frame. Rubber gaskets stretch when you install them so wait a day to trim for a tighter fit.

A79500	26-31	Price Ea.	\$ 3.50
--------	-------	-----------	---------

Closed Car Windshield Frame Gasket (Aluminum Frame)

For the aluminum frame, this is the gasket to use. This does the bottom and both sides but wait a day to trim because of stretch.

A79501	28-31	Price Ea.	\$ 4.15
--------	-------	-----------	---------

Closed Car Glass Bedding

The correct cork / neoprene bedding to be used for setting the glass in the windshield frame.

A3403X	28-31	Price Roll	\$ 7.50
--------	-------	------------	---------

Closed Car Windshield Bracket

This bracket is an exact duplicate of the '28-'29 originals Includes rivets.

A45471A	28-29	Price Ea.	\$ 9.95
---------	-------	-----------	---------

Closed Car Windshield Bracket

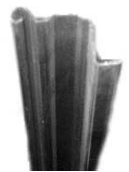

This bracket is an exact duplicate of the '30-'31 originals for all Coupes. Includes Rivets.

A45471B	30-31	Price Ea.	\$ 9.95
---------	-------	-----------	---------

Closed Car Windshield Hinges

These aluminum hinges for the Coupes have to be drilled out and have tapers cut on the ends.

A45411AR	28-29	Price Ea.	\$ 11.30
A45411A	30-31	Price Ea.	\$ 11.30

Closed Car Windshield Hinge Gasket

This gasket is critical to keep out water. It fits between the windshield hinge and the header. The small round edge is exposed to the outside.

A79550	28-31	Price Ea.	\$ 3.00
--------	-------	-----------	---------

Closed Car Windshield Hinge to Header Screws

A complete set of screws to attach the hinges to the header on the Closed Cars.

A30200	28-29	6 1/4-20 x 1/2" round head screws, 4 10/32 x 3/8 flat, 2 10/32 x 1/2 Oval & 2 3/8 x 10/32 square Nuts.	Price Set \$ 1.80
--------	-------	--	-------------------

A30210	30-31	10 - #10 x 1" round head wood screws	Price Set \$ 1.00
--------	-------	--------------------------------------	-------------------

Closed Car Windshield Hinge Screws - Interior

5 - #10 x 3/4" flat head wood screws attach to inside of the windshield to secure the Windshield hinge to the header.

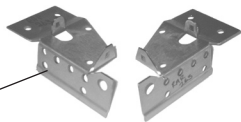

A30220	28-31	Price Set	\$ 0.50
--------	-------	-----------	---------

Mike's "A" FORD-ABLE Parts

Windshield Header Brackets

Use this metal bracket to connect the wood header to the side wood body rail.

RAR263	30-31	Coupe - Std & Deluxe	
		Price Pair	\$ 39.50
RAR260		Early 30-31 Sport Coupe	
		Price Pair	\$ 25.95

Windshield Header Bracket Screws

8 - 5/16-18 x 2" flat head screws. Two screws go forward into the header and two at a right angle, into the wood side rail.

Also 6 - 12/24 x 5/8" flat head screws and 6 1/4" external, counter sunk lock washers to mount the brace to the vertical top.

A40130	28-31	Price Set	\$ 2.75
--------	-------	-----------	---------

Header Cover

This is a steel panel that slips over the wood header above the windshield on the **Coupes**. This may need some handwork as it is a handmade piece. Paint upper Body color.

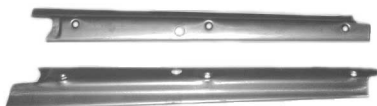

A174DS	28-29	Price Ea.	\$ 145.00
--------	-------	-----------	-----------

Closed Car Windshield Garnish

This steel garnish screws to the windshield posts on both sides of the windshield opening on the closed cars.

A45483A	28-29	Steel - Coupe	
		Price Pair	\$ 46.50

A45483	30-31	Steel - Coupe	
		Price Pair	\$ 46.50
A45483S	30-31	Stainless - Coupe	
		Price Pair	\$ 63.25

Garnish Molding Screws

These screws are 10/32 x 1/2" to attach the garnish molding to the door.

A342S	28-31	Price Ea.	\$ 0.15
-------	-------	-----------	---------

Filler Trim

This panel goes above the gas tank at the back edge on '30-'31's. The lower part of the windshield closes against this.

BWO-3031-LS	30-31	Price Ea.	\$ 178.00
-------------	-------	-----------	-----------

Closed Car Swing Arms

These are the arms that pivot to hold the windshield out for fresh air or close and seal the glass shut.

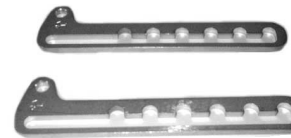

A45463S	28-31	Price Pair	\$ 9.95
---------	-------	------------	---------

Accessory Style Swing Arms

These arms have notches in them so that the arms are sure not to move or slide.

Once you use these you'll be hooked.

A45463N	28-31	Price Pair	\$ 29.95
---------	-------	------------	----------

Closed Car Windshield Frame Nut

This is the special nut that goes on the windshield frame to attach the swing arm to. Need 2.

A45475NUT	28-31	Price Ea.	\$ 1.45
-----------	-------	-----------	---------

Closed Car Pivot Bolt & Nut

This kit has the hardware to hold the swing arm to the windshield frame on both sides.

A45475S	28-29	Price Set	\$ 2.70
---------	-------	-----------	---------

The '30-'31's Windshields did not use sleeve nuts. The A45475NUT was used for nuts.

A45476B	30-31	Price Set	\$ 0.75
---------	-------	-----------	---------

Closed Car Swing Arm Washers

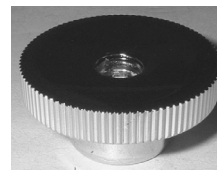

You need one set of these for your car. These are chrome cup-shaped washers with rubber inserts that go on the swing arms.

A45477S	28-31	Price Pair	\$ 2.50
---------	-------	------------	---------

Closed Car Swing Arm Nuts

These are the chrome-plated nuts that hold the swing arms in place when you open the windshield.

A45482	28-31	Price Pair	\$ 6.95
--------	-------	------------	---------

Windshield Wipers

Electric Wiper Motor

This is a universal 6-volt motor that mounts on the inside of the car. The shaft is sleeved and threaded to hold it in place. **Does not include wiper blade and arm.**

110 Degree Sweep.

Black Housing - With On - Off Switch. - 1928-1931.

The 6 Volt shaft can be adapted from the 3 1/4" to 2 1/2" if necessary. Unless you adapt the motor to go thru the windshield frame with an angled hole, you will not be able to open the windshield.

For arms and blades for this motor, we suggest **A17529A** or **A17529CHP** Arms (below) and **A17528** or **A17528B** Blades - (Page Coupe 30).

A17508E6 6 Volt - 3 1/4" Shaft Price Ea. \$ 41.25

A17508E12 12 Volt - 3 1/4" Shaft Price Ea. \$ 52.75

Electric Wiper Assembly

This is a polished stainless steel assembly **complete with arm and blade.** Really nice. Instructions are included for shortening shaft if required.

A17508SS6 28-31 6 Volt - 5" Shaft - No On-Off Switch
Price Ea. \$ 55.00

A17508SS12 28-31 12 Volt - 5" shaft - No On-Off Switch
Price Ea. \$ 54.95

Electric Wiper Connection

These connections are used on all the electric wipers to connect the wire to the wiper motor.

A17675 28-30 Price Ea. \$ 5.50

Electric Wiper Wire Kit

Replace your dirty, cracked wiper wire with this correct black and blue cloth-covered wire. It runs from the terminal box to the wiper motor and has the flag connector for the terminal box end.

A17500WK 28-31 Price Ea. \$ 3.75

Electric Wiper Wire Clip

You will need three of these to hold the wiper motor wire to the header on your Coupe.

A17616A 28-30 Price Ea. \$ 1.50

Wiper & Dome Light Wire Support

This clip was held in place by a bolt that held the gas tank to the cowl. It served as a grommet holder for the wiper and or dome lamp wire, and the other part of the clip held the top of the kick panel in place. Grommet included. 2 Required.

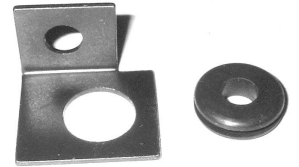

A14591 28-29 Price Ea. \$ 4.30

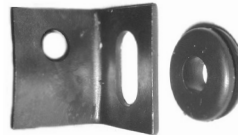

A14591GR Grommet Only Price Ea. \$ 0.70

Coupe Electric Wiper Wire Supports

You will need three of these for the Coupe to hold the wire which goes to the wiper motor plus to support the cowl light wire. Need 3 per Car.

A14593A 28-29 Price Ea. \$ 2.25

A14593 30-31 Price Ea. \$ 2.90

***** MIKES TIPS *****

Use only Replacement Blades with Replacement Arms and Show Blades with Show Arms.

Replacement Electric Wiper Arm - Closed Cab Pickup

If your wiper motor is mounted on the outside of the cab, this is the arm to use.

A17529A 28-31 Price Ea. \$ 3.75

Replacement Electric Wiper Arm (Generic)

Price Ea. \$ 16.50

8 1/4" Black, Multi Ply, Universal Use Blade with Cotter Pin Hole. Use A17565A Arm.

A17506E Price Ea. \$ 16.50

Show Electric (Flat) Tension Arm

This exact reproduction arm has been heat treated and cadmium plated. Includes the Special Square Head Tension Bolt, Knurled Nut and Cotter Pin. Not Stamped with Trico - 6 1/2" Cad.

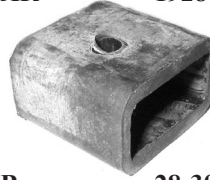

A17565A 1928 - June 1929 Price Ea. \$ 21.95

Wiper Mounting Boots

These rubber boots slipped onto the mounting ears of the original electric wiper motors.

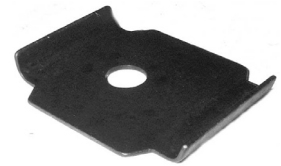

A17595AR 1928 Closed end
Price Ea. \$ 6.95

A17595B 28-30 Open End
Price Ea. \$ 2.85

Wiper Boot Plates

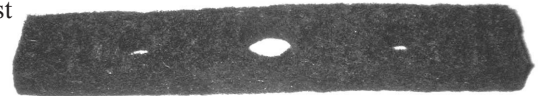

This plate goes on top of the wiper mounting boot on the later closed cars.

A17595P 29-30 Price Pair \$ 3.40

Wiper Motor Felt

This felt fits most motors in use today. It goes between wiper motor and the windshield frame on all closed cars. 3" x 5/8.

A17618 28-30 Price Ea. \$ 1.75

Manifold Hole Plug

This is the special slotted pipe plug which was used on the side of the block near the oil pump to let you see if your oil pump was working. This is also used for the valve fitting on the inlet manifold to plug the hole. To hold in the oil pump while changing the pan gaskets - use A6701 Page Gen. 118. This is also used to plug the intake manifold when an electric wiper is used.

A6621 28-31 Price Ea. \$ 0.65

Electric and Vacuum Tandem Wiper Kit

This kit allows you to add on a wiper for the passenger side so they can see, too! It will adapt to A17508 6V or 12 V Motor. Before drilling any holes, make sure the distance between the Motor Shaft and the Pivot Shaft is EQUAL to the length of the Link Rod Assembled to the Wiper Arm.

A17574 28-31 Price Set \$ 29.15

Mike's "A" FORD-ABLE Parts

There are not any decent New Vacuum Wiper Motors available. We can rebuild a good core.

Vacuum Wiper Motor Control

Here's the on/off control for the outside mounted wiper motor. This passes through the windshield frame.

A17534 28-31 Price Ea. \$ 3.95

Vacuum Wiper Mounting Screws

Here are the screws needed to mount the vacuum wiper motor.

A17500CMB 30-31 Closed car Price Pair. \$ 1.10

Show Quality Vacuum Arm

6 3/4" Black, Clip Type Arm used from June 1929 thru 1931 on Standard Coupes.

A17565B 29-31 Price Ea. \$ 16.00

Show Quality Vacuum Wiper Blade

8 1/4" Black, Single Rivet, Multi-Ply Blade with Clip for April 1929 thru 1931 Coupes.

A17506F 1929 - 1931 Price Ea. \$ 16.50

Rear Bow Sleeve Nut

An exact duplicate steel sleeve nut, not plated. Used on 28-31 Sport Coupes to fasten the rear bow to the rear bow support straps. See "How to Restore your Model A - Vol. 5" A91023.

A37809 28-31 Price Ea. \$ 14.00

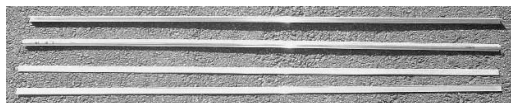

***** Mike's Hints *****

Forming Rain Gutters - (A47301)

Trace gutter curve on the body to a piece of paper. Copy the curve to a 2" x 10" block of wood. Cut radius out of block with a jig saw. Nail a larger sheet of plywood to the 2" x 10" block. The "J" gutter is extra long, therefore place one hand at the end of the "J" molding and the other hand about 2 1/2 feet apart. You can waste the 6" - 8" where your hand is located. Slide the gutter across the plywood and pull it against the block to form the curve. The flat tacking strip should be cut half way across every 1/2 inch to be able to bend along the curve.

Coupe Rain Gutters

One set (90") will do both sides with this aluminum gutter that you bend to the contours of your car. Fasten the flat piece to the roof and the gutter piece snaps into it. Will work on any car with wood to nail it to. See hints for forming. Due to the length of gutters, they are shipped at OS2 70 Lbs rate and additional shipping will be charged.

A47301A Coupes Price 1/2 Set \$ 12.00

***** Mike's Hints *****

Instructions on Aluminium Top Moulding

Nail the molding to the roof, then tap the edges in to hide the nails. A "V" shaped block of wood, will do the trick.

PLEASE NOTE: Top Moulding is shipped in a PVC Tube for protection. There is an additional UPS Handling Fee.

Coupe Front Top Roof Molding - Style # 1

This style of aluminum molding goes on the front over the sun visor for the '30-'31 Coupe 45B

A473011 5 Ft. Piece 5/8" wide Price Ea. \$ 12.60

Coupe Side and Rear Top Roof Molding Style # 3

This style of aluminum molding goes on the rear and sides of the '30-'31 Coupe 45B.

A473013 10 Ft. Piece 5/8" wide Price Ea. \$ 18.60

Coupe Top Roof Rear Molding - Style # 6

This is an aluminum molding which is nailed in the center and then rubber molding (A473019) is inserted into it to cover the nails. Used from 5/31 on the Coupes. Order 2 for Coupes.

Hinge Pin Remover

This helpful tool, uses three graduating hardened push pins to push your old hinge pins up and out of the hinge. As you tighten the bolt it will push the dowel and the old pin out. Set comes complete with 3 different length push pins and complete instructions. NOT to be used on Slant Windshield Cars. This item is NOT Refundable!!

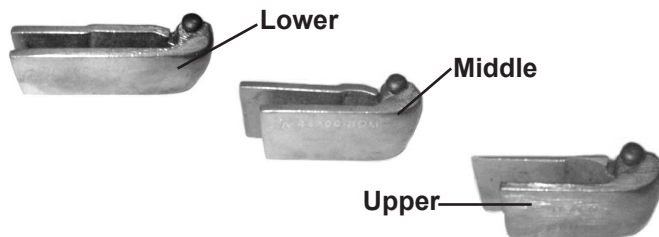

T46335HR 28-31 Price Ea. \$ 28.75

WARNING!!!

If your dowel pins start bending DO NOT go any further with this tool. These dowels are made from a hardened steel but NOT case hardened. The manufacturer has issued a warning that if a case hardened or heat treated steel was used, it could very well explode or splinter under such pressure, and possibly do bodily harm. I suggest trying penetrating oil, but if that doesn't work, then take a fine drill bit and try drilling at least halfway through the pin. Then use the removing tool.

Coupe Door Hinges

The hinge pin holes are drilled, but the body mounting holes are NOT drilled. Unfinished Cast Bronze. '30-'31 Shown.

Gas Tank

Specifications:

Steel thickness: .049" to .051" (terne plated)
Capacity: 28-29, 10 gal.; 30-31, 11 gal.

The following new parts are required to complete a restoration of your Gas Tank. This is only a guide - do not assume that this is all that is needed, all other parts need to be thoroughly checked.

1. Gas Tank Sealer - AGTS
2. Fuel Tank Welt Anti-Squeak - A9006
3. Gas Tank Filler Screen - A9020
4. Fuel Shut Off - A9189A or B
5. Fuel Shut Off Filter - A9193T or A9194B
6. Filter in Gas Bowl - A9156
7. Gas Lines - A9230A, B, A9230AV, BV, A9240B, C
8. Gas Gauge Tool - T9300
9. Gas Gauge Rebuilding Kit - A9320S
10. Gas Gauge Nut - A9326 - Inner - A9330 - Outer
11. Intake and Exhaust Manifold Gaskets - A9433F, A9433, A9433C, A9433C2
12. Carb Kit - A9595Z, B or T
13. Grose Jet - A9564GJZ, GJT or B9564Z
14. Choke Rod Assembly - A9700B or C
15. Grommet Set - A9066A or A9715/17
16. Control Rods - A9740S
17. Sediment Bowl - A9155
18. Sediment Bowl Gaskets - A9173 or N

Gas Tank Sealer

Extend the life of your old tank with this semi-elastic sealant. Seals pin holes, covers rust flakes, not affected by alcohol. Cannot be shipped by air. For best results, have the gas tank chemically cleaned and rust free before using this sealer.

AGTS 28-31 Price Quart \$ 25.00

Gas Tank Etching

Remove light rust inside of your gas tank before you put in the AGTS Gas Tank Sealer. This will leave a gray phosphate coating. 16 Oz.

A9002E 28-31 Price Each \$ 11.75

Cowl Welt

This roll of 1/8" black beading is used when you mount your gas tank.

'28-'29 Across back edge of tank and down sides of cowl.

'30-'31 Around back edge and sides.

Paint lower body color.

A3405CW 28-31 10 Ft. Roll Price Roll \$ 3.75

Gas Tank Anti-Squeak Welt

This 1/16" x 12 ft. woven fabric welt is used as a buffer around the gas tank to eliminate rattles. The early models use it all the way around the tank; the later models on the front and back edges.

A9006 28-31 Price Roll \$ 3.60

Gas Tank Filler Screen

This tab-style screen sits in the neck of the gas tank. Does not fit early threaded style. See page 441 of Service Bulletins for correct installation.

These will **not** work with tool - T9021 - below.

A9020 28-31 Price Ea. \$ 10.45

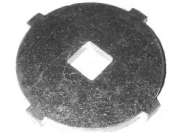

Gas Tank Filler Screen Tool

A great tool to help with the installation or removal of the Filler Screen (A9020). Place the tool in the filler neck notches and use a socket wrench and extension.

For original Screens Only.

T9021 28-31 Price Ea. \$ 3.75

Gas Tank Protector

Mike's "A" FORD-ABLE Parts

Speedometer Calibration by Wiley Higgins

While driving a Model A, the optimum driving speed is a steady 45 MPH. This speed moves you along at a good pace and helps keep you out of the way of most traffic, while not putting too much strain on your engine. If your Model A won't hold a steady 45 M.p.h., something needs to be corrected.

First of all, a Model A Speedometer usually is *not accurate* after over 60 years of use, even it has been rebuilt by a professional. Also, tire size and rear-end ratio have an effect. So, your speedometer may indicate a different speed than you are actually travelling down the road - either faster or slower.

The best method of determining the **actual speed** you are travelling is to **conduct a time/distance check**. Here's how:

1. Select a reasonably **straight and level stretch** of highway.
2. Use your digital or sweep second hand watch as a stop watch.
3. As you pass any **mile post** (remember, straight and level is best), start the stop watch or note the seconds on the sweep second hand.
4. **Hold the same, steady speed** for **one mile** to the *next* mile post, and **note how many seconds have elapsed**.
5. **Consult the chart** below to determine your true speed over the ground.
6. **Repeat steps 1. through 5.** above two or three times and get **an average**.
7. Adjust your speed over the ground slower or faster if you have a speedometer error to hold a steady 45 M.p.h.. For example, it takes **80 seconds** to go **1 mile** if your *true* ground speed is **45 M.p.h..**

SEC (1 Mile)	MPH	SEC (1 Mile)	MPH
102	35.3	86	41.9
101	35.6	85	42.4
100	36.0	84	42.9
99	36.4	83	43.4
98	36.7	82	43.9
97	37.1	81	44.4
96	37.5	80	45.0
95	37.9	79	45.6
94	38.3	78	46.2
93	38.7	77	46.8
92	39.1	76	47.4
91	39.6	75	48.0
90	40.0	74	48.7
89	40.5	73	49.3
88	40.9	72	50.0

Cowl Light Wire Support

Or you can use three of these to hold the wires for the cowl lights and the wipers.

A14593A 28-29 Price Ea. \$ 2.25

Turn Signal Kit (6 Volt)

BE SAFE. Signal Stat. Add this complete turn signal kit directly to your tail lights. Kit includes the switch, fuse, flasher, flasher socket and complete instructions. Cowl conversion kit works with this one. If you do not have cowl lights you will need to install front turn signal lights of some sort. Comes with instructions. 11 Piece Set. For more turn signals items see our Turn Signal Section on Page Coupe 70.

A13310A 28-31 Price Set/11 \$ 58.95

Turn Signal Flasher

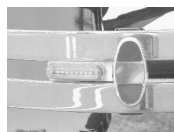

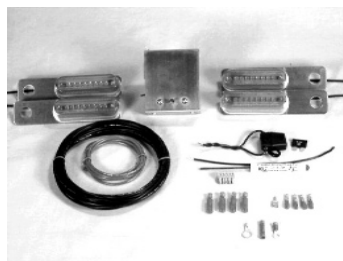

6-Volt flashers are hard to find; you'll need this if you have added turn signals to your A.

A13311 28-31 Price Ea. \$ 5.25

Complete Turn Signal Kit (6 or 12 Volt + or -)

Now you can have super bright Amber LED turn signals for your "A"! Kit includes super bright LED turn signals, stainless steel brackets, controller and wire. The easy hookup connects to 6 Volt OR 12 Volt cars with negative or positive ground without even flipping a switch. The kit features all solid state components (there are no turn signal flashers to wear out and the LED's will last for over 25 years!). The whole kit is bolted on so you don't have to permanently modify your car. Slim line turn signals mount to bumper clamp bolts and have a one wire hook up. Each turn signal is individually short circuit protected so if one wire shorts to the chassis, only that one light won't come on. Eliminate the short and the turn signal will work again. Also has a hazard light function and is backed by a one year manufacturer's warranty. 20 Piece Set.

A13311A 28-31 Price Kit/20 \$ 169.95

Mike's "A" FORD-ABLE Parts

Custom LED Third Brake Lights

Made in USA. Custom LED Third Brake Light fits in the back window of cars and trucks. Strong, twin suction cups attach the rugged, black ABS case to the glass in the back window. Two wire, easy hookup works with 6V or 12V negative or positive ground vehicles. Electronics feature all solid state components (nothing to wear out and the LEDs should last for over 25 years!). No permanent modifications to your car are required. Kit comes with Third Brake Light, harness, connectors, mounts, and suction cups. Logo Lites Custom LED Third Brake Lights are backed by a one year manufacturer's warranty.

Turn Signals

Turn Signal Kit (6 Volt)

BE SAFE. Signal Stat. Add this complete turn signal kit directly to your tail lights. Kit includes the switch, fuse, flasher, flasher socket and complete instructions. Cowl conversion kit works with this one. If you do not have cowl lights you will need to install front turn signal lights of some sort. Comes with instructions. 11 Piece Set.

A13310A 28-31 Price Set/11 \$ 58.95

Turn Signal Flasher

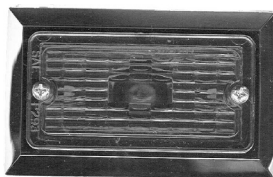

6-Volt flashers are hard to find; you'll need this if you have added turn signals to your A.

A13311 28-31 Price Ea. \$ 5.25

Turn Signal Lamps

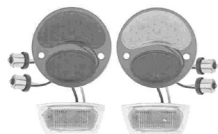

If you are using the A13310A Turn Signal Kit these are the turn signal lights that will fit between the front and rear bumper bars. No modifications needed. Don't forget to buy extra wire by the foot see wiring section on Page Gen. 198. Available for both 6 & 12 Volts. Use on front and rear.

A13405T6	6 Volt - Amber	Price Ea.	\$ 20.95
A13405T6R	6 Volt - Red	Price Ea.	\$ 20.95
A13405T12	12Volt - Amber	Price Ea.	\$ 19.95

A13457	Left - Half Amber		
A13457R	Left - Red	Price Ea.	\$ 43.00

Complete Turn Signal Kit (6 or 12 Volt + or -)

Now you can have super bright Amber LED turn signals for your "A"! Kit includes super bright LED turn signals, stainless steel brackets, controller and wire. The easy hookup connects to 6 Volt OR 12 Volt cars with negative or positive ground without even flipping a switch. The kit features all solid state components (there are no turn signal flashers to wear out and the LED's will last for over 25 years!). The whole kit is bolted on so you don't have to permanently modify your car. Slim line turn signals mount to bumper clamp bolts and have a one wire hook up. Each turn signal is individually short circuit protected so if one wire shorts to the chassis, only that one light won't come on. Eliminate the short and the turn signal will work again. Also has a hazard light function and is backed by a one year manufacturer's warranty. 20 Piece Set.

A13311A 28-31 Price Kit/20 \$ 169.95

SEAT PARTS

Seat Adjuster Installation

Seat Adjuster Bolt

This special threaded bolt is used to adjust the screw-type adjustable seat, by moving it backwards or forwards. The seat adjuster nut (A47832N) goes on this. Original Screws will not fit repro. nuts, its best to replace the bolt and nut. 5 1/2" Long. Used on: '30-'31 Coupes

A47832S 30-31 Price Ea. \$ 18.95

Seat Adjuster Nut

This is the special round nut. Used on: '30-'31 Coupes. This nut will only fit the repro screw A47832S.

A47832N 30-31 Price Ea. \$ 12.95

Seat Adjuster Washer

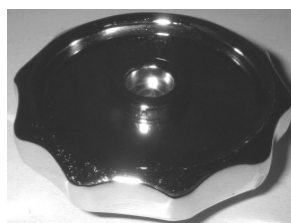

This washer goes on the head of the seat adjuster bolt before the bolt goes through the bracket at the front of the seat. This washer is made of nylon for smoother operation, not brass like the original. Used with the A47832S.

A47835 30-31 Price Ea. \$ 1.80

Seat Adjuster Knob

This chrome-plated round knurled knob is for the front seat adjustment. Used on: '30-'31 Coupe & Sport Coupe

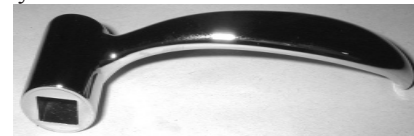

A47836 29-31 Price Ea. \$ 14.35

Seat Adjuster Handle

This brass chrome-plated style handle was used on:

Mid '31 - End Coupes

A47836B 30-31 Price Ea. \$ 12.95

Seat Adjuster Handle Screw

This screw holds the round seat adjustment knob A47836 to the seat adjustment bolt A47832S.

A47836MB 30-31 Price Ea. \$ 0.70

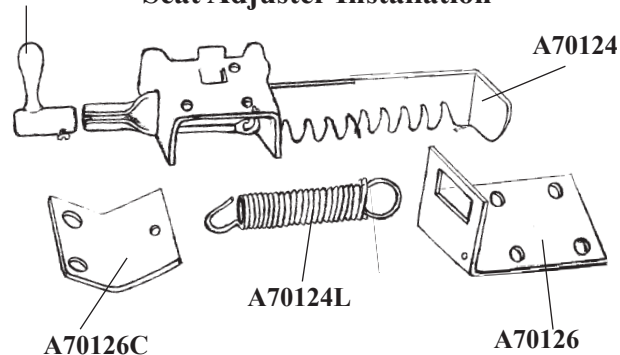

Seat Adjuster Bracket

Mounts onto the bottom of the wood frame. This holds the seat adjusting screw in place, so that seat can be moved back and forth. Used on: 1930 - Mid 1931 Coupes, Sport Coupes

A47837 1930 - Mid 1931 Price Ea. \$ 26.95

A47836B Seat Adjuster Installation

Seat Adjuster Bracket and Nut

An "L" shaped bracket that is located on the body cross member and extends up the front seat frame. A47832N is installed. For the screw type seat adjuster. Used on 1930 to mid 1931 on Coupes, Sport Coupes.

A47838 1930 - Mid 1931 Price Set \$ 51.95

Seat Align Clip

Used on '28-'29 Coupes this clip screws onto the backrest wood and is what the seat back hangs onto.

RAR210 28-29 Price Ea. \$ 4.95

Mike's "A" FORD-ABLE Parts

Seat Adjuster

A saw-tooth style seat adjuster. Mounting bracket is at the front of the seat. Mounting bracket to the floor is not included. See A70126, A70126C. Used on:

Late 1931 Coupe

A70124 1931 Price Ea. \$ 63.00

Seat Adjuster Spring

This 6" spring is used with the saw-tooth style adjuster - A70124.

A70124L 1931 Price Ea. \$ 4.40

Seat Track Assembly

Mount this sliding track assembly with bolts and spacers provided on top of the seat frame Used on:

'30-'31 Coupes

A321BT 30-31 Price Set \$ 52.00

Seat Stop Block

Attach this block to the bottom of the wood that the cushion spring is upholstered to. When the spring is in position the block sits just behind the front edge of the seat riser to keep the cushion in place. Used on '28 - '29 Coupes.

RAR205 28-29 Price Ea. \$ 10.50

Seat Latch Assembly

This is the bracket for the saw-tooth style seat adjuster. Mount it to the floor under the front of the seat.

Used on late Deluxe Coupes.

A70126 1931 Price Ea. \$ 28.00

Seat Spring Clip

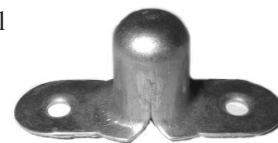

This clip holds the adjuster spring on the saw-tooth seat adjuster. It screws into the back bottom edge of the front seat assemblies. Used on late 1931 Coupes.

A70126C 1931 Price Ea. \$ 11.00

Seat Cushion Dowel

Holds seat cushion onto the body subrail so that cushion (springs) will not move. Need 2 per seat.

A121D 28-31 Price Ea. \$ 10.25

Front Seat Stop Guide

Used on Coupes. This is a front seat stop guide. They go under the seat and attach to the sides of the wood frame. This stops the seat bucket from unscrewing when adjusted. 2 Required.

RAR267 1928 - Early '31 Price Ea. \$ 4.95

COUPE

Seat Springs

Note: All seat springs are shipped directly from the manufacturer. We do not stock springs. Please make sure you know exactly what year and Model you have as the manufacturer will not take springs back. Oversize shipping charges do apply. 1928 - 1929 has rounded edges and the 1930 - 1931 has squared edges with smaller springs.
