Mike's "A" FORD-ABLE Parts

OPEN CARS

IMPORTANT!!!!

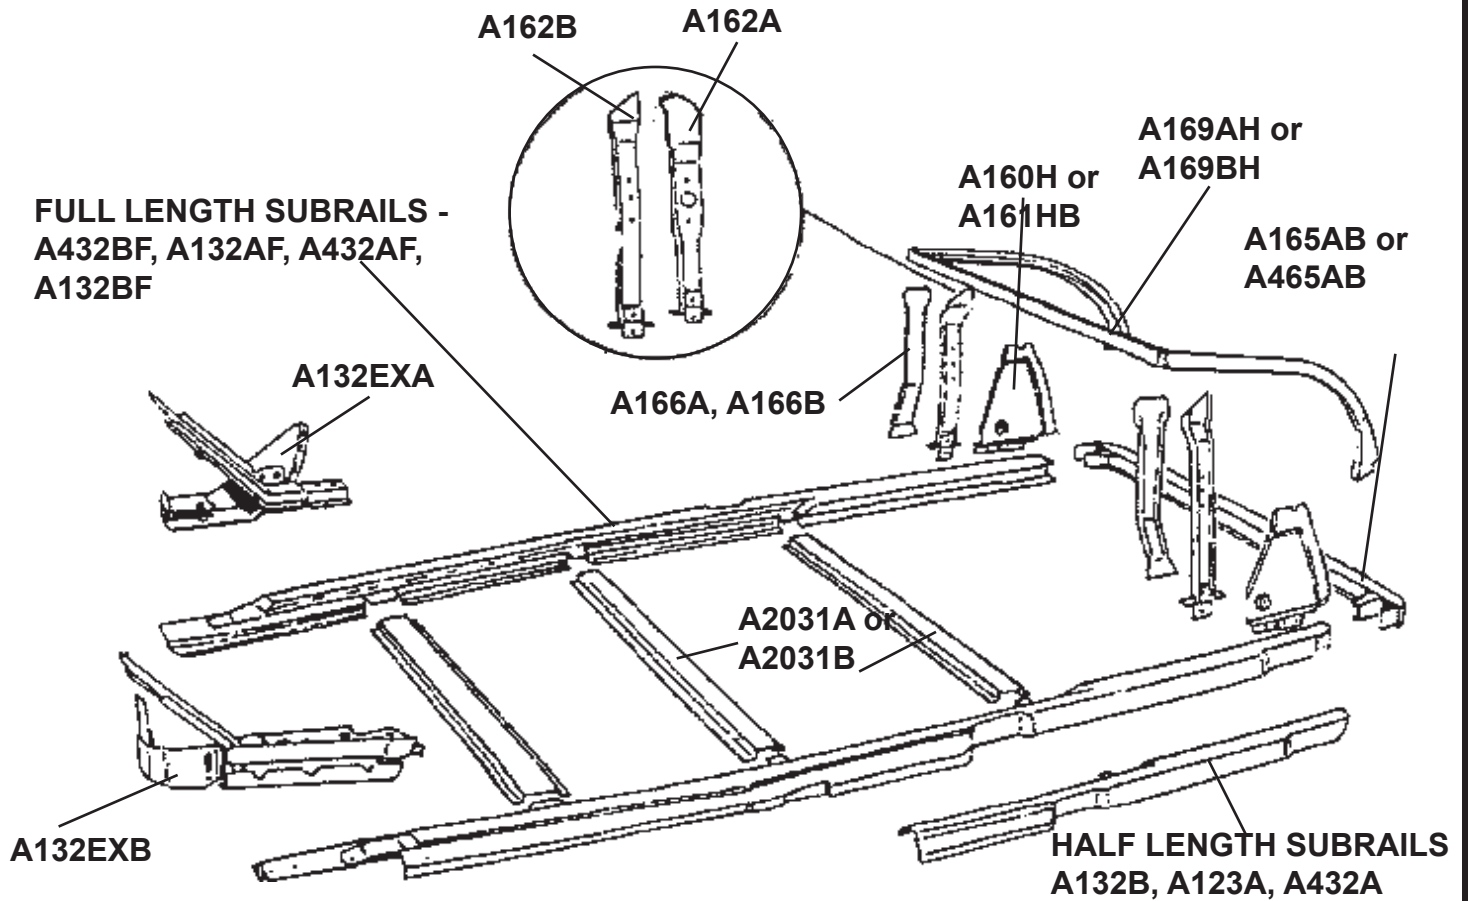

It is important when fitting sheet metal to your car to FIRST fit before painting or drilling any holes. Many times it is necessary to use C-Clamps, vise grips or a pin to locate holes for alignment.

In order to secure a proper fit and alignment, it is normally necessary to loosen all attaching sheet metal parts. Some reworking may be necessary as mating parts may come from different suppliers or new parts versus 50 year old parts are placed together.

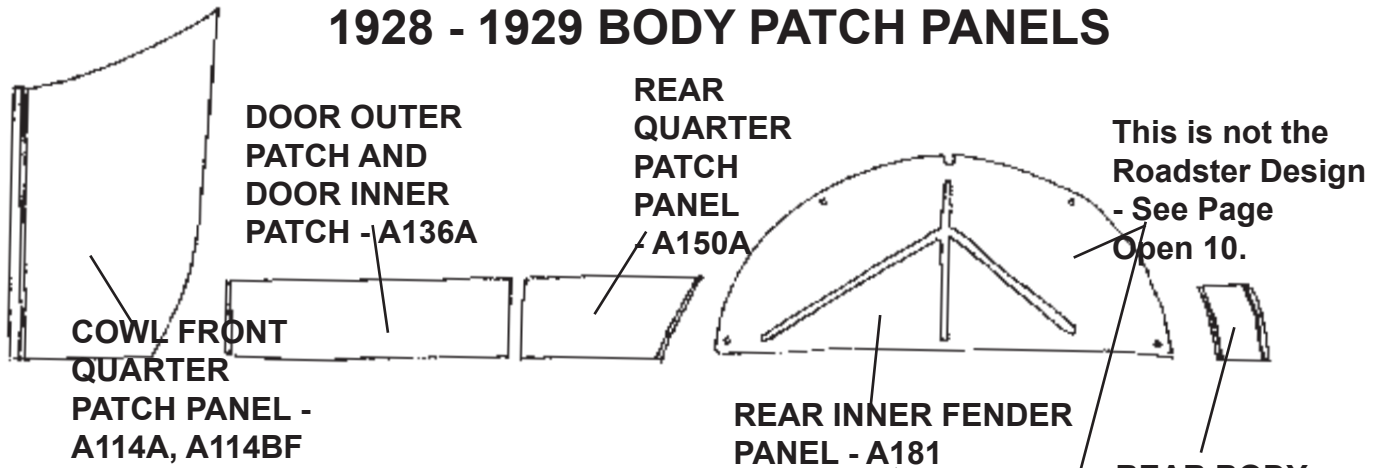

Some metal parts may have been treated with oil or many still have residue from forming oils. It is necessary to thoroughly clean the metal with a metal prep or solution to remove all oils and/or fingerprints before painting.

NO REWORKED OR PAINTED PARTS ARE ACCEPTABLE FOR RETURN.

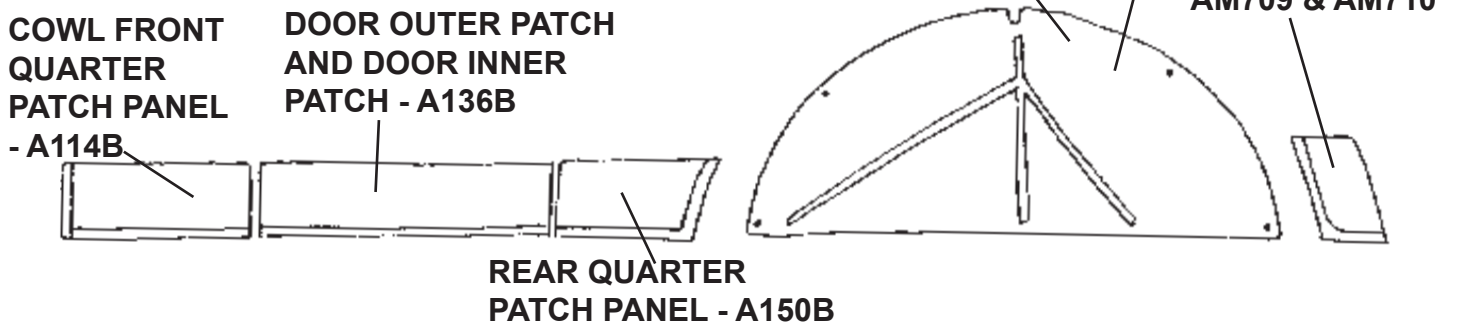

Mike's "A" FORD-ABLE Parts

1929 Roadster owned and restored by Mr. S. Cole - notice the original accessory hub caps. Steve is one of our Technical Guru's here at Mike's.

1930 Deluxe Roadster has belonged to the Andrews family since 1959. Shown with Mr. Bob Andrews, standing underneath the wing of a B-17 in which he flew 34 missions. Bob's son Andy runs the shipping department here at Mike's.

Mike's "A" FORD-ABLE Parts

Wood

Welcome to Mike's Wood Section. We have a complete selection of wood available for all Roadsters & Phaetons, made out of the finest wood available. Each Piece is custom made to fit exactly like it was originally made using top quality hardwoods - oak, ash or poplar. We do not stock these items, they will be shipped directly from the manufacturer - separate shipping charges will apply.

UNFORTUNATELY DUE TO THE AMOUNT OF RETURNS INDIVIDUAL WOOD PIECES ARE NO LONGER AVAILABLE.

***** MIKE'S TIPS *****

If you are having a problem with your Doors, or your Hood will not line up with your Radiator Shell and Cowl - additional Shimming is required, usually under the cowl section. Align the hood first, then work back.

Top Wood - All of the wood from the top of the doors up.

Ribs - These go across the roof and support the top.

Belt Rail - Around the edge of the body where the top meets the body.

Body Wood - Structural Wood inside the body - Does NOT include Chassis wood, Belt Rail or Door wood, unless specified.

Headers - Wood above the windshield - Always included in the Top Wood Kits.

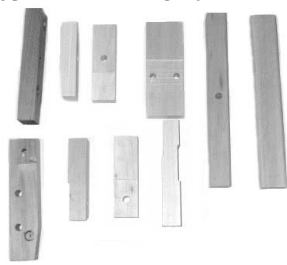

Roadster & Phaeton Body Mount Blocks

If your car has wooden sub rails, you don't need these! They go between the steel sub rails and the frame. Complete set per car. Don't forget to order your body block pads A5000P, A5001P and/or Cowl Shims A5002P.

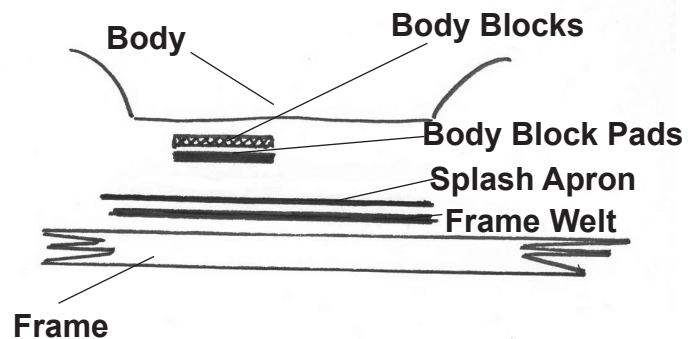

Instructions are included.

AWD1005 28-29 Price Set \$ 29.50

A1449	28-31		Price Ea.	\$ 1.65
-------	-------	--	-----------	---------

Rear Fenders & Brackets

As front fenders are generic to all Model A's they are still in there own Section - See Page Gen. 199 & 200 For Front Fenders

Roadster & Phaeton Rear Fenders

Please read carefully before purchase.

Fiberglass Fenders - A complete line of fiberglass fenders are available. These are all hand laminated with fiberglass matte and special resins to achieve the optimum in strength.

Please Note: Additional shipping will apply due to large boxes. These are special orders, please allow three to four weeks for delivery. Rear fenders will be shipped by courier and are charged according to the box size.

Steel Fenders - It is important when fitting sheet metal to your car to FIRST fit before painting or drilling any holes. Many times it is necessary to use C-Clamps, vise grips or a drift pin to locate holes for alignment. In order to secure a proper fit and alignment, it is normally necessary to loosen all attaching sheet metal parts. Some reworking may be necessary as mating parts many come from different suppliers or new parts versus 80 year old parts are placed together. Some metal parts may have been treated with oil or may still have residue from forming oils. It is necessary to thoroughly clean the metal with a metal prep or solution to remove all oils and / or fingerprints before painting.

NO RE-WORKED, RUSTED OR PAINTED FENDERS ARE ACCEPTABLE FOR RETURN.

Roadster Rear Fiberglass Fenders:

1928 - 1929

F16161A	Left	Price Ea.	\$ 199.00

Glass Sets

PLEASE NOTE: All glass is clear AS1 safety glass 1/4" thick. This safety glass works very well and presents no fitting or installation problems. Your glass will be shipped by UPS in special boxes that will ensure safe delivery. Most shipments will be made within 14 working days of the receipt of your order and WILL require additional shipping charges. Shipping charges do apply to glass picked up at our store.

The following codes are used below to describe the glass:

W = Windshield D = Door Glass

Q = Quarter Glass B = Back Glass

Where "DD" appears it indicates 2 Door Windows, "QQ" indicates 2 Quarter Windows, ETC.

PLEASE MAKE SURE TO SPECIFY THE EXACT YEAR AND BODY STYLE OF YOUR CAR.

Side View of a 1928-1929 Roadster Top Irons

The '28-'29 Roadster has 3 Folding straps. The '30-'31 has only one main strap that pins into the center bow when up. The Windshield posts are about 44" center to center on a '28-'29 Roadster, but at least 2 inches wider on a '30-'31 Roadster (around 46".)

Deluxe Top Irons

If you've got the **Deluxe** car, you'll want these stainless steel - painted steel units. The painted part is light buff like the originals. Steam Bent Bows are not included with the Irons.

A43501C	30-31	Deluxe Roadster	Price Set	\$ 420.00
A43501H	30-31	Deluxe Phaeton	Price Set	\$ 690.00

Universal Top Iron Kit

This top iron assembly is manufactured to fit all Ford Roadsters from 1928 thru 1932, and will probably fit other makes of Roadsters as well. The kit is also designed to fit Ford Roadster Pickups from 1928 - 1934. Extra holes have been drilled to allow for the differences in body and windshield dimensions, and to allow for stock or chopped windshields. The header board comes pre-cut and formed, to be drilled on the Top Irons have been mounted to the windshield. The top bows are made in three sections, comprising of two rounded ends and a straight center piece, which is supplied longer than necessary, to be cut to length on the top irons to be fitted to the vehicle. This section then slides over two sleeves that protrude from the rounded ends, to complete the formation of the top bows. The kit is manufactured of steel, the header board is of premium hardwood, has stainless steel fasteners and is supplied with fitting instructions. The top can be lifted off in one piece, or folded down like original. Once mounted, the top irons are ready to go to the upholstery shop of your choice.

A43501MU	28-32	Price Set	\$ 490.00

Hinge Pin Remover

This helpful tool, uses three graduating hardened push pins to push your old hinge pins up and out of the hinge. As you tighten the bolt it will push the dowel and the old pin out. Set comes complete with 3 different length push pins and complete instructions. **NOT** to be used on Slant Windshield Cars. **This item is NOT Refundable!!**
T46335HR 28-31 Price Ea. \$ 28.75

WARNING!!!

If your dowel pins start bending **DO NOT** go any further with this tool. These dowels are made from a hardened steel but **NOT** case hardened. The manufacturer has issued a warning that if a case hardened or heat treated steel was used, it could very well explode or splinter under such pressure, and possibly do bodily harm. I suggest trying penetrating oil, but if that doesn't work, then take a fine drill bit and try drilling at least halfway through the pin. Then use the removing tool.

Open Car Hinge Bolts

These are the hardware sets to attach the open car hinges. Each set contains 4 nuts, bolts, and washers. The DMB attaches door to hinge; the PMB attaches hinge to post. One Set does 1 Door.

A35600DMB 28-31 Price Set/16 \$ 2.85

1929 Std. Roadster owned by Mr. F. Akers and restored at "Bentley's".

Gas Tank

Specifications:

Steel thickness: .049" to .051" (terne plated)
Capacity: 28-29, 10 gal.; 30-31, 11 gal.

The following new parts are required to complete a restoration of your Gas Tank. This is only a guide - do not assume that this is all that is needed, all other parts need to be thoroughly checked.

1. Gas Tank Sealer - AGTS
2. Fuel Tank Welt Anti-Squeak - A9006
3. Gas Tank Filler Screen - A9020
4. Fuel Shut Off - A9189A or B
5. Fuel Shut Off Filter - A9193T or A9194B
6. Filter in Gas Bowl - A9156
7. Gas Lines - A9230A, B, A9230AV, BV, A9240B, C
8. Gas Gauge Tool - T9300
9. Gas Gauge Rebuilding Kit - A9320S
10. Gas Gauge Nut - A9326 - Inner - A9330 - Outer
11. Intake and Exhaust Manifold Gaskets - A9433F, A9433, A9433C, A9433C2
12. Carb Kit - A9595Z, B or T
13. Grose Jet - A9564GJZ, GJT or B9564Z
14. Choke Rod Assembly - A9700B or C
15. Grommet Set - A9066A or A9715/17
16. Control Rods - A9740S
17. Sediment Bowl - A9155
18. Sediment Bowl Gaskets - A9173 or N

Gas Tank Sealer

Extend the life of your old tank with this semi-elastic sealant. Seals pin holes, covers rust flakes, not affected by alcohol. Cannot be shipped by air. For best results, have the gas tank chemically cleaned and rust free before using this sealer.

AGTS 28-31 Price Quart \$ 25.00

Gas Tank Etching

Remove light rust inside of your gas tank before you put in the AGTS Gas Tank Sealer. This will leave a gray phosphate coating. 16 Oz.

A9002E 28-31 Price Each \$ 11.75

Cowl Welt

This roll of 1/8" black beading is used when you mount your gas tank.

'28-'29 Across back edge of tank and down sides of cowl.

'30-'31 Around back edge and sides.

Paint lower body color.

A3405CW 28-31 10 Ft. Roll Price Roll \$ 3.75

Gas Tank Anti-Squeak Welt

This 1/16" x 12 ft. woven fabric welt is used as a buffer around the gas tank to eliminate rattles. The early models use it all the way around the tank; the later models on the front and back edges.

A9006 28-31 Price Roll \$ 3.60

Gas Tank Filler Screen

This tab-style screen sits in the neck of the gas tank. Does not fit early threaded style. See page 441 of Service Bulletins for correct installation.

These will **not** work with tool - T9021 - below.

A9020 28-31 Price Ea. \$ 10.45

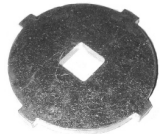

Gas Tank Filler Screen Tool

A great tool to help with the installation or removal of the Filler Screen (A9020). Place the tool in the filler neck notches and use a socket wrench and extension.

For original Screens Only.

T9021 28-31 Price Ea. \$ 3.75

Gas Tank Protector

Lay this lined naugahyde on top of the tank when filling to protect your finish.

A9030P 28-31 Price Ea. \$ 21.95

Gas Tank Speedo Cable Grommet

This elongated grommet will help save your cable that runs under the gas tank in the tunnel to the speedo.

A9066R 28-29 Price Ea. \$ 3.45

Firewall to Gas Tank Screws

This set of screws has all the parts needed to attach the gas tank to the firewall.

Paint lower body color.

10 12-24 x 19/32 Pan Head Screw & Lockwasher.

#46 30-31 Price Set \$ 2.95

Mike's "A" FORD-ABLE Parts

Firewall to Gas Tank Bolts

This set of bolts is what you'll need to attach the gas tank to the firewall.

8 x 3/8 Tall Headed 1/4 - 20 5/8" Bolts, Lockwashers & 1/2" Nuts.

Paint lower body color.

#46A 28-29 Price Set/8 \$ 4.10

Gas Tank To Belt Rail Bolts

This set of bolts is what you'll need to attach the gas tank to the cowl. Bolts secure the back edge of the tank to the dash rail support.

#46B 28-29 1/4-20 x 1/2" Bolts, LW's & Hex Nuts Price Set/24 \$ 3.85

#46C Early 1930 12 x 1/4" - 20 3/4" Bolts & l.w. Price Set/36 \$ 3.85

#46D Mid 1930 Size changed to 5/16-24 x 25/32" Bolts, LW's and Nuts. Price Set/36 \$ 3.85

#46E Late 1930 to End - The same 5/16-24 x 25/32" Bolts were used, except the nuts were placed inside a cage. Unfortunately these cage nuts are no longer available. Price Set/24 \$ 4.85

Gas Cap

Vented gas cap in the style used for '28-'29 cars. Chrome over brass. Includes gasket.

A9030A 28-29 Price Ea. \$ 17.90

Show Quality Gas Cap

Vented stainless steel gas cap for '30-'31. This is the best quality available. It's a copy of the original Eaton style cap. These really fit. Includes the correct gasket.

A9030C 30-31 Price Ea. \$ 19.95

Gas Cap Gaskets

Treated leather gaskets.

A9035A 28-29 Price Ea. \$ 0.65

A9035 30-31 Price Ea. \$ 0.95

Sediment Bowl Repair Kit

Rebuild kit to improve the functioning of original cast iron sediment bulb on the firewall.

Instructions included.

A9155RK 28-31 Price Kit/3 \$ 4.75

Glass Sediment Bowl Micro Filter

Improve the efficiency with this filter which fits inside the glass bowl.

Instructions included.

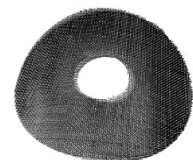

Can only be used with A9155 - See Page Open 49.

A9156 28-31 Price Set/3 \$ 4.50

Sediment Bowl Screen

This brass screen fits between the bowl gasket and the bulb housing on the glass sediment bulbs.

A9155SC 28-31 Price Ea. \$ 1.65

Sediment Bowl Assembly

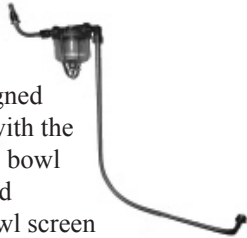

Glass sediment bowl was originally an option from **Mid '29** but will work on all A's, except for indented firewalls. Gasket (**A9173** - below) and Screen (**A9155SC** - Page Open 48) are included. Use Micro Filter (**A9156** - Page Open 48) in this Bowl.

A9155 **28-31** **Price Ea.** \$ 26.95

Late '31 Filter Kit

Use this kit if you are NOT running the correct side-bowl style Zenith Carb. Designed to accommodate the late **1931** Model A's with the gas valve on the firewall. Includes a glass bowl type sediment bulb along with gas lines and fittings to install. The copper sediment bowl screen can be replaced by using **A9155SC**.

A9155L **1931** **Price Kit** \$ 27.95

Sediment Bowl Gaskets

For the glass sediment bowl. Neoprene should be replaced when you remove the bowl.

A9173N **28-31** **Neoprene** **Price Ea.** \$ 0.55

Sediment Bowl Glass

Replace your discolored bowl with a new clear one.

A9158 **28-31** **Price Ea.** \$ 5.50

Side Bowl Filter

On the **late '31** A's, Ford moved the filter to the side of the carburetor. Complete with all hardware.

A9161 **1931** **Price Set** \$ 51.00

Side Bowl Filter Without Hardware

If all you need is the side bowl filter, and not all of the hardware.

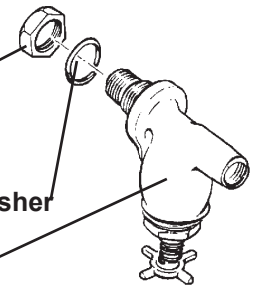

A9161A **1931** **Price Ea.** \$ 33.00

1928 to 1931 Cast Iron Sediment Bowl

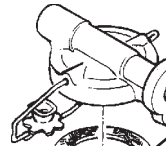

7/8 - 14 Nut (1-1/4 Wrench) A9156A

Lock Washer

These three items are not available new.

Mid 1929 to Early 1931 Glass Sediment Bowl

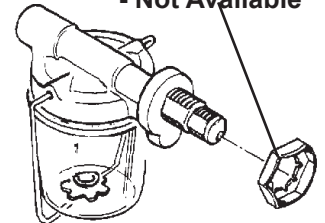

Cork / Neoprene Gasket - A9173 & N

Screen - A9155SC

Glass Bowl - A9158

Special Nut (No Lock Washer) - Not Available

Thanks to Les Andrews for the use of his drawings.

Side-Bowl Rebuild Kit

With this you can rebuild your side bowl filter. Mounted on the side of the carb.

A9161SC **Late 1931** **Price Kit/3** \$ 2.25

Side Filter Bolt

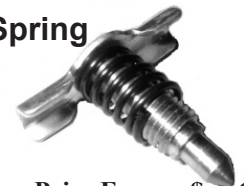

This is the special bolt to hold the side bowl filter to the carb on the **late '31** A's.

A9161B **1931** **Price Ea.** \$ 4.60

Side Bowl Drain Valve and Spring

For the **late '31** A's, this drain needle with spring screws into the bottom of the filter.

A9161V **1931** **Price Ea.** \$ 6.35

Sediment Bowl Brass Cap Plug

For Cast Iron bulbs. Goes into the bottom of the cast iron sediment bulb and **A9177** (Page Open 70) threads into it.

A9175 **28-31** **Price Ea.** \$ 8.50

Mike's "A" FORD-ABLE Parts

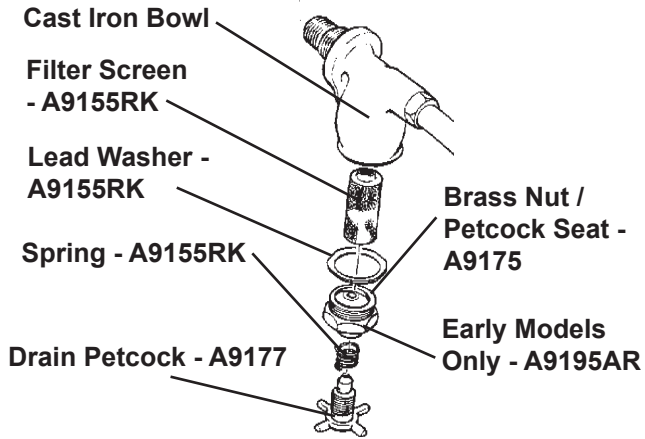

Sediment Bowl Brass Drain Valve & Forged Drain & Spring.

For Cast Iron bowls.

A9177 28-31 Price Set \$ 11.95

Installation of Repair Kit for Cast Iron Bowl

Fuel Shut off Valve

This all brass valve is inside the car to shut the gas off going to the carb.

A9189A 28-31 Price Ea. \$ 32.25

Fuel shut Off Valve Packing Nut

This brass nut holds the packing in place the sediment bulb.

A9195AR 1928 - late 1929 Price Ea. \$ 3.50
A9195B 1929-1931 Price Ea. \$ 2.50

Late '31 Gas Shut Off Valve

This all brass valve was used on the late '31 A's with the indented firewall. This is fitted onto the firewall in the engine compartment.

A9189B 1931 Price Ea. \$ 36.95

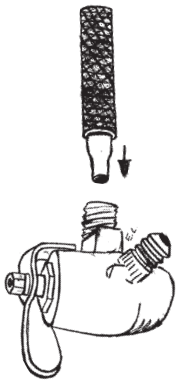

Electric Fuel Cut Off Don't Leave this off!!!!

How often have we forgotten to switch off the gas. Well now you don't have to, just leave your gas on and let the Electric Fuel Cut Off do the job for you. Made to go on your 1/4" fuel line that runs from the firewall to the carburetor. Simply Turn the key On or off - THAT'S IT. Comes with Complete instructions. Available in 6 or 12 Volt.

A9189 28-31 6 Volt Price Set \$ 55.00
A9189/12V 28-31 12 Volt Price Set \$ 55.00

Installation of Fuel Shut Off & Gas Tank Screen (A9193T) into A9189A

Gas Tank Screen (Fuel Shut Off)

This screen presses into the gas shut-off valve where it goes into the gas tank to keep sediment and rust out of the carb.

A9193T 28-31 Price Ea. \$ 3.15

Fuel Valve Grommet

For the late '31 valves that mount on the firewall, you'll need this excellent repro. to go in the hole.

A9171 1931 Price Ea. \$ 1.95

Gas Shut Off Fuel Valve Handle Only

Handle only for the earlier (A9189A) shut off valve.

A9189H 28-31 Price Ea. \$ 2.95

Gas Shut Off Fuel Valve Handle Only

This is the forged style handle used from the beginning until April 1929.

A9191A 28 - April 29 Price Ea. \$ 13.95

Gas Shut off Valve Packing

If your shut off valve isn't shutting off, try replacing the packing before buying a new valve.

A9193 28-31 Price Ea. \$ 0.95

Speedometer Calibration by Wiley Higgins

While driving a Model A, the optimum driving speed is a steady 45 MPH. This speed moves you along at a good pace and helps keep you out of the way of most traffic, while not putting too much strain on your engine. If your Model A won't hold a steady 45 M.p.h., something needs to be corrected.

First of all, a Model A Speedometer usually is *not accurate* after over 60 years of use, even it has been rebuilt by a professional. Also, tire size and rear-end ratio have an effect. So, your speedometer may indicate a different speed than you are actually travelling down the road - either faster or slower.

The best method of determining the **actual speed** you are travelling is to **conduct a time/distance check**. Here's how:

1. Select a reasonably **straight and level stretch** of highway.
2. Use your digital or sweep second hand watch as a stop watch.
3. As you pass any **mile post** (remember, straight and level is best), start the stop watch or note the seconds on the sweep second hand.
4. **Hold the same, steady speed for one mile** to the *next* mile post, and **note how many seconds have elapsed**.
5. **Consult the chart** below to determine your true speed over the ground.
6. **Repeat steps 1. through 5.** above two or three times and **get an average**.
7. Adjust your speed over the ground slower or faster if you have a speedometer error to hold a steady 45 M.p.h.. For example, it takes **80 seconds** to go **1 mile** if your *true* ground speed is **45 M.p.h.**

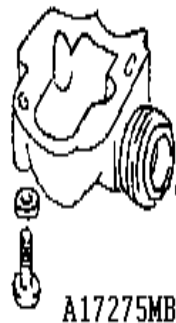

SEC (1 Mile)	MPH	SEC (1 Mile)	MPH
102	35.3	86	41.9
101	35.6	85	42.4
100	36.0	84	42.9
99	36.4	83	43.4
98	36.7	82	43.9
97	37.1	81	44.4
96	37.5	80	45.0
95	37.9	79	45.6
94	38.3	78	46.2
93	38.7	77	46.8
92	39.1	76	47.4
91	39.6	75	48.0
90	40.0	74	48.7
89	40.5	73	49.3
88	40.9	72	50.0
87	41.4

Mr. W. T Higgins to many known as "The Colonel" shared some wonderful memories with us.

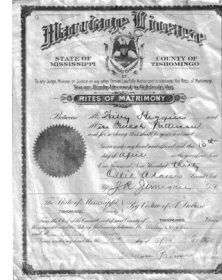

My father is the one on the left in the pic with the three men with the roadster in the background. I expect the pic was made around 1935 or so. It was made in front of my grandfather's house. The other two men worked on my grandfather's farm.

The other one of the roadster by itself was probably made around 1936. The car had been sitting in the barn, up on blocks, because my father couldn't afford to run it during the great Depression. He ordered 4 tires from Sears and Roebuck, which were delivered one tire at a time by the rural mail carrier, and got the car out of the barn around '36, and mounted them. He later took a brush and repainted it black. He then sold it to one of his brothers, who later sold it again.

I remember my father telling about seeing it later in a nearby town, with the rumble seat removed and a makeshift "pickup" bed installed. Times were still hard in '36 and the owner was peddling stove wood from door to door to make a little money. We never saw it again.

My father and mother courted in the car. In the local lingo, they called it "sparking" -- don't ask me why. They were riding around on Sunday, April 13, 1930, with two of his sisters in the rumble seat. He leaned over and whispered, "Let's take the girls home and go over to Iuka and get married". She agreed and they drove across the Tennessee River to Iuka, Mississippi, and got married. Alabama had a 3-day waiting period once you registered to get married, so they hurried up the process by going to Mississippi. Their marriage license is attached.

My last memory of the car was riding in it with my uncle. In that area of rural Alabama there were springs up on the hillsides and the water simply ran across the road -- no bridges. They were shallow and you could drive thru the little streams easily. The car needed a wash job, so my uncle pulled off the road into the stream and began to wash it. I can distinctly remember he played a trick on me by throwing a bucket of water at the windshield while I was still in the car to make me jump.

I also found this picture. My mother gave it to me after she found it in a trunk belonging to my Aunt Mary, whom we called Sis, after she died in 1982. Sis is the fourth lady from the left, with the white collar. My mother didn't know who the Model A belonged to.

The others in the pic are relatives and friends. The man in the pic is distant cousin Lem Dodson. I wrote him several years ago when he was in his 90's, sent him a copy of this pic and asked him if he knew who the car belonged to. He didn't remember who owned it and added, "I never owned a Ford in my life!!". The first lady on the left is his sister, Flora May.

I think the car is a late 1928 or an early 1929. It has a drum tail light and fluted headlight lenses, but door handles, which '28's didn't have. The hood louvers appear to be '29 style, i. e., getting longer as they go back. The '28's were all the same length. Also, the front bumper center bumper clamp is missing. Probably shook off on the rough roads back then.

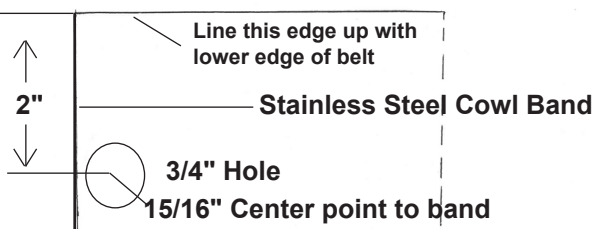

Cowl Light

The following new parts are required to complete a restoration of your Cowl lights. This is only a guide - do not assume that this is all that is needed, all other parts need to be thoroughly checked.

Turn Signal Flasher

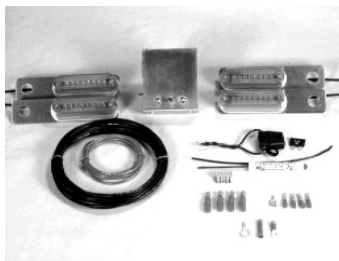

6-Volt flashers are hard to find; you'll need this if you have added turn signals to your A.

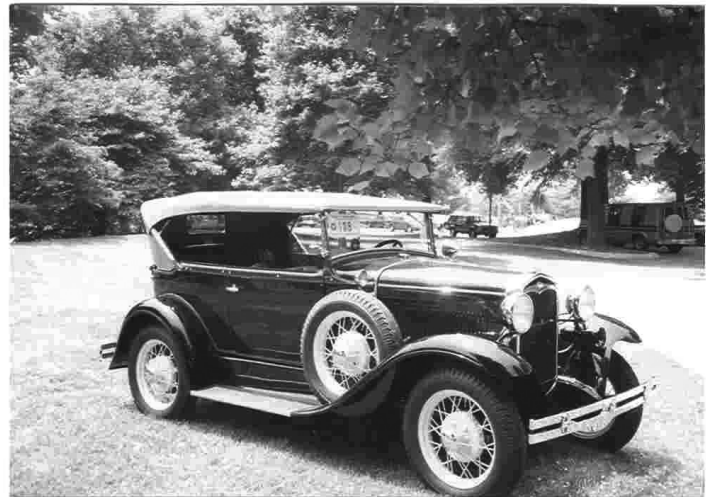

A13311 28-31 Price Ea. \$ 5.25

Complete Turn Signal Kit (6 or 12 Volt + or -)

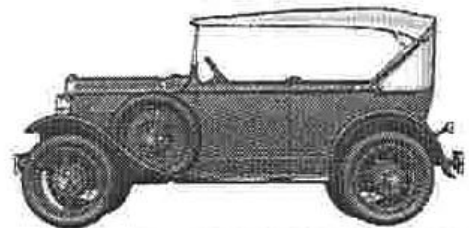

Now you can have super bright Amber LED turn signals for your "A"! Kit includes super bright LED turn signals, stainless steel brackets, controller and wire. The easy hookup connects to 6 Volt OR 12 Volt cars with negative or positive ground without even flipping a switch. The kit features all solid state components (there are no turn signal flashers to wear out and the LED's will last for over 25 years!). The whole kit is bolted on so you don't have to permanently modify your car. Slim line turn signals mount to bumper clamp bolts and have a one wire hook up. Each turn signal is individually short circuit protected so if one wire shorts to the chassis, only that one light won't come on. Eliminate the short and the turn signal will work again. Also has a hazard light function and is backed by a one year manufacturer's warranty. 20 Piece Set.

----------	-------	-------------	---------

See Page Open 70 for the complete Turn Signal Section.

1928 / 1929 Stoplight Switch Mounting

1930 / 1931 Stoplight Switch Mounting

Thanks to Les Andrews for the use of his drawings.

Custom LED Third Brake Lights

Custom LED Third Brake Light fits in the back window of cars and trucks. Strong, twin suction cups attach the rugged, black ABS case to the glass in the back window. Two wire, easy hookup works with 6V or 12V negative or positive ground vehicles. Electronics feature all solid state components (nothing to wear out and the LEDs should last for over 25 years!). No permanent modifications to your car are required. Kit comes with Third Brake Light, harness, connectors, mounts, and suction cups. Logo Lites Custom LED Third Brake Lights are backed by a one year manufacturer's warranty.

Turn Signals

Turn Signal Kit (6 Volt)

BE SAFE. Signal Stat. Add this complete turn signal kit directly to your tail lights. Kit includes the switch, fuse, flasher, flasher socket and complete instructions. Cowl conversion kit works with this one. If you do not have cowl lights you will need to install front turn signal lights of some sort. Comes with instructions. 11 Piece Set.

A13310A **28-31** **Price Set/11 \$ 58.95**

Turn Signal Flasher

6-Volt flashers are hard to find; you'll need this if you have added turn signals to your A.

A13311 **28-31** **Price Ea. \$ 5.25**

Turn Signal Lamps

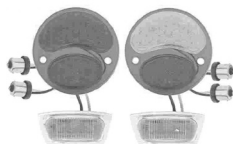

If you are using the **A13310A** Turn Signal Kit these are the turn signal lights that will fit between the bumpers bars on the front and rear. No modifications needed. Don't forget to buy extra wire by the foot see wiring section - **Page Gen. 193**. Available for both 6 & 12 Volts. Use on front and rear.

A13405T6	6 Volt - Amber	Price Ea.	\$ 20.95
A13405T6R	6 Volt - Red	Price Ea.	\$ 20.95
A13405T12	12Volt - Amber	Price Ea.	\$ 19.95
A13405T12R	12 Volt - Red	Price Ea.	\$ 19.95

LED Replacement Tail Light - All Red or Half Amber

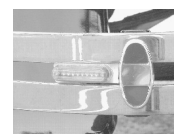

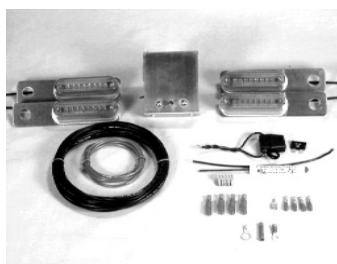

Use this brand new product in your duo lamp housing and have the advantage of LED Tail lights. 6 or 12 Volt.

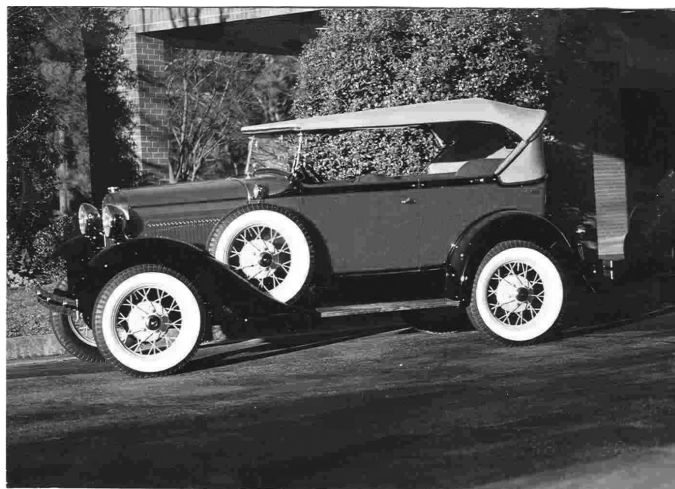

12 Volt			
A13453	Right - Half Amber		
A13453R	Right - Red	Price Ea.	\$ 40.00
A13454	Left - Half Amber		
A13454R	Left - Red	Price Ea.	\$ 40.00
6 Volt			
A13455	Right - Half Amber		
A13455R	Right - Red	Price Ea.	\$ 43.00
A13457	Left - Half Amber		
A13457R	Left - Red	Price Ea.	\$ 43.00

Complete Turn Signal Kit (6 or 12 Volt + or -)

Now you can have super bright Amber LED turn signals for your "A"! Kit includes super bright LED turn signals, stainless steel brackets, controller and wire. The easy hookup connects to 6 Volt OR 12 Volt cars with negative or positive ground without even flipping a switch. The kit features all solid state components (there are no turn signal flashers to wear out and the LED's will last for over 25 years!). The whole kit is bolted on so you don't have to permanently modify your car. Slim line turn signals mount to bumper clamp bolts and have a one wire hook up. Each turn signal is individually short circuit protected so if one wire shorts to the chassis, only that one light won't come on. Eliminate the short and the turn signal will work again. Also has a hazard light function and is backed by a one year manufacturer's warranty. 20 Piece Set.

A13311A **28-31** **Price Kit/20 \$ 169.95**
