SEDAN

Mike's "A" FORD-ABLE Parts

Wood

Welcome to Mike's Wood Section. We have a complete selection of wood available for all Sedans, made out of the finest wood available. Each Piece is custom made to fit exactly like it was originally made using top quality hardwoods - oak, ash or poplar. We do not stock these items, they will be shipped directly from the manufacturer - separate shipping charges will apply.

UNFORTUNATELY DUE TO THE AMOUNT OF RETURNS INDIVIDUAL WOOD PIECES ARE NO LONGER AVAILABLE.

***** MIKE'S TIPS *****

If you are having a problem with your Doors, or your Hood will not line up with your Radiator Shell and Cowl - additional Shimming is required, usually under the cowl section. Align the hood first, then work back.

Top Wood - All of the wood from the top of the doors up.

Ribs - These go across the roof and support the top.

Belt Rail - Around the edge of the body where the top meets the body.

Body Wood - Structural Wood inside the body - Does NOT include Chassis wood, Belt Rail or Door wood, unless specified.

Headers - Wood above the windshield - Always included in the Top Wood Kits.

Coupe Body Mount Blocks

If your car has wooden sub rails, you don't need these! They go between the steel sub rails and the frame. Complete set per car. Don't forget to order your body block pads A5000P, A5001P and/or Cowl Shims A5002P.

Instructions are included.

Rear Fenders & Brackets

As front fenders are generic to all Model A's they are still in there own Section - See Page Gen. 200 For Front Fenders

Sedan Rear Fenders

Please read carefully before purchase.

Fiberglass Fenders - A complete line of fiberglass fenders are available. These are all hand laminated with fiberglass matte and special resins to achieve the optimum in strength.

Please Note: Additional shipping will apply due to large boxes. These are special orders, please allow three to four weeks for delivery. Rear fenders will be shipped by courier and are charged according to the box size.

Steel Fenders - It is important when fitting sheet metal to your car to FIRST fit before painting or drilling any holes. Many times it is necessary to use C-Clamps, vise grips or a drift pin to locate holes for alignment. In order to secure a proper fit and alignment, it is normally necessary to loosen all attaching sheet metal parts. Some reworking may be necessary as mating parts many come from different suppliers or new parts versus 80 year old parts are placed together. Some metal parts may have been treated with oil or may still have residue from forming oils. It is necessary to thoroughly clean the metal with a metal prep or solution to remove all oils and / or fingerprints before painting.

NO RE-WORKED, RUSTED OR PAINTED FENDERS ARE ACCEPTABLE FOR RETURN.

Sedan Rear Fiberglass Fenders:

1928 - 1929

F16311A	Left	Price Ea.	\$ 199.00

Glass Sets

PLEASE NOTE: All glass is clear AS1 safety glass 1/4" thick. This safety glass works very well and presents no fitting or installation problems. Your glass will be shipped by UPS in special boxes that will ensure safe delivery. Most shipments will be made within 14 working days of the receipt of your order and WILL require additional shipping charges. Shipping charges do apply to glass picked up at our store.

The following codes are used below to describe the glass:

W = Windshield D = Door Glass

Q = Quarter Glass B = Back Glass

Where "DD" appears it indicates 2 Door Windows, "QQ" indicates 2 Quarter Windows, ETC.

PLEASE MAKE SURE TO SPECIFY THE EXACT YEAR AND BODY STYLE OF YOUR CAR.

Windshield Wipers

Electric Wiper Motor

This is a universal 6-volt motor that mounts on the inside of the car. The shaft is sleeved and threaded to hold it in place. **Does not include wiper blade and arm.**

110 Degree Sweep.

Black Housing - With On - Off Switch. - 1928-1931.

The 6 Volt shaft can be adapted from the 3 1/4" to 2 1/2" if necessary. Unless you adapt the motor to go thru the windshield frame with an angled hole, you will not be able to open the windshield.

For arms and blades for this motor, we suggest **A17529A** or **A17529CHP** Arms (below) and **A17528** or **A17528B** Blades - (Page Sedan 29).

A17508E6 6 Volt - 3 1/4" Shaft Price Ea. \$ 41.25

A17508E12 12 Volt - 3 1/4" Shaft Price Ea. \$ 52.75

Electric Wiper Assembly

This is a polished stainless steel assembly **complete with arm and blade.** Really nice. Instructions are included for shortening shaft if required.

A17508SS12 28-31 12 Volt - 5" shaft - No On-Off Switch Price Ea. \$ 54.95

Electric Wiper Connection

These connections are used on all the electric wipers to connect the wire to the wiper motor.

A17675 28-30 Price Ea. \$ 5.50

Electric Wiper Wire Kit

Replace your dirty, cracked wiper wire with this correct black and blue cloth-covered wire. It runs from the terminal box to the wiper motor and has the flag connector for the terminal box end.

A17500WK 28-31 Price Ea. \$ 3.75

Electric Wiper Wire Clip

You will need three of these to hold the wiper motor wire to the header on your Sedan.

A17616A 28-30 Price Ea. \$ 1.50

Wiper & Dome Light Wire Support

This clip was held in place by a bolt that held the gas tank to the cowl. It served as a grommet holder for the wiper and or dome lamp wire, and the other part of the clip held the top of the kick panel in place. Grommet included. 2 Required.

A14591 28-29 Price Ea. \$ 4.30

A14591GR Grommet Only Price Ea. \$ 0.70

Sedan Electric Wiper Wire Supports

You will need three of these for the Sedan to hold the wire which goes to the wiper motor plus to support the cowl light wire. Need 3 per Car.

A14593A 28-29 Price Ea. \$ 2.25

A14593 30-31 Price Ea. \$ 2.90

***** MIKES TIPS *****

Use only Replacement Blades with Replacement Arms and Show Blades with Show Arms.

Replacement Electric Wiper Arm

If your wiper motor is mounted on the outside of the cab, this is the arm to use, except 1931 Slant Windshield Sedans. Originally used Black in 1929 - 1931.

A17529A 28-31 Price Ea. \$ 3.75

Replacement Electric Wiper Arm (Generic)

If you've got the aftermarket **A17500-E6** motor, you will need this wiper arm. You can use the **A17528** or **A17528B** blade. This is a chopped (shorter) Arm also for Street rods.

A17529CHP 28-31 Price Ea. \$ 10.95

Mike's "A" FORD-ABLE Parts

Replacement Electric Wiper Blade

These wiper blades fit all Model A Replacement arms.

A17528 28-29 7-1/4" Blade
Price Ea. \$ 2.50

A17528B 30-31 8-1/4" Blade
Price Ea. \$ 2.75

Show Quality Electric Blades

8 3/4" Nickel Plated, Single Ply Blade with Cotter Pin Hole used on Early 1928 Closed Cars. Use A17565A Arm.

A17506A Early 1928 Price Ea. \$ 16.50

This is an exact duplicate of the original TRICO embossed blade for the cars with the original electric motor. 8 1/4" Nickel Blade with cotter hole - single ply rubber. Use A17565A Arm.

A17506B 1928 - April 1929 - Closed Cars
Price Ea. \$ 16.25

8 1/4" Nickel Plated, Contoured Top, Multi-Ply Blade with Cotter Pin Hole. Use A17565A Arm.

A17506D April 1929 - June 1930
Price Ea. \$ 16.50

8 1/4" Black, Multi Ply, Universal Use Blade with Cotter Pin Hole. Use A17565A Arm.

A17506E Price Ea. \$ 16.50

Show Electric (Flat) Tension Arm

This exact reproduction arm has been heat treated and cadmium plated. Includes the Special Square Head Tension Bolt, Knurled Nut and Cotter Pin. Not Stamped with Trico - 6 1/2" Cad.

A17565A 1928 - June 1929 Price Ea. \$ 21.95

Wiper Mounting Boots

These rubber boots slipped onto the mounting ears of the original electric wiper motors.

A17595AR 1928 Closed end
Price Ea. \$ 6.95

A17595B 28-30 Open End
Price Ea. \$ 2.85

Wiper Boot Plates

This plate goes on top of the wiper mounting boot on the later closed cars.

A17595P 29-30 Price Pair \$ 3.40

Wiper Motor Felt

This felt fits most motors in use today. It goes between wiper motor and the windshield frame on all closed cars. 3"x 5/8.

A17618 28-30 Price Ea. \$ 1.75

Manifold Hole Plug

This is the special slotted pipe plug which was used on the side of the block near the oil pump to let you see if your oil pump was working. This is also used for the valve fitting on the inlet manifold to plug the hole. To hold in the oil pump while changing the pan gaskets - use A6701 Page Gen. 118. This is also used to plug the intake manifold when an electric wiper is used.

A6621 28-31 Price Ea. \$ 0.65

Electric and Vacuum Tandem Wiper Kit

This kit allows you to add on a wiper for the passenger side so they can see, too! It will adapt to A17508 6V or 12 V Motor. Before drilling any holes, make sure the distance between the Motor Shaft and the Pivot Shaft is EQUAL to the length of the Link Rod Assembled to the Wiper Arm.

A17574 28-31 Price Set \$ 29.15

There are not any decent New Vacuum Wiper Motors available. We can rebuild a good core.

Vacuum Wiper Motor Control

This is the on/off control for outside mounted wiper motor. This passes through windshield frame.

334 28-31 Price Ea. \$ 3.95

Vacuum Wiper Mounting Screws

These are the screws needed to mount the vacuum wiper motor.

500CMB 30-31 Closed car Price Pair. \$ 1.10

See Page Sedan 6 for Header Cover and Page Sedan 6 for Filler Trim

PLEASE NOTE: MOLDING AND GUTTERS ARE SHIPPED IN PVC TUBING. UPS DOES CHARGE AN ADDITIONAL HANDLING FEE.

***** Mike's Hints *****

Forming Rain Gutters - (A47301)

Trace gutter curve on the body to a piece of paper. Copy the curve to a 2" x 10" block of wood. Cut radius out of block with a jig saw. Nail a larger sheet of plywood to the 2" x 10" block. The "J" gutter is extra long, therefore place one hand at the end of the "J" molding and the other hand about 2 1/2 feet apart. You can waste the 6" - 8" where your hand is located. Slide the gutter across the plywood and pull it against the block to form the curve. The flat tacking strip should be cut half way across every 1/2 inch to be able to bend along the curve.

Mike's "A" FORD-ABLE Parts

Sedan Rain Gutters - Full Set

One set (90") will do both sides with this aluminum gutter that you bend to the contours of your car. Fasten the flat piece to the roof and the gutter piece snaps into it. Will work on any car with wood to nail it to. See hints for forming. Due to the length of gutters, they are shipped at OS2 70 Lbs rate and additional shipping will be charged.

A47301 28-31 sent UPS in PVC tubing
Price Set/4 \$ 24.00

***** Mike's Hints *****

Instructions on Aluminium Top Moulding

Nail the molding to the roof, then tap the edges in to hide the nails. A "V" shaped block of wood, will do the trick.

Hinge Pin Remover

This helpful tool, uses three graduating hardened push pins to push your old hinge pins up and out of the hinge. As you tighten the bolt it will push the dowel and the old pin out. Set comes complete with 3 different length push pins and complete instructions. NOT to be used on Slant Windshield Cars. This item is NOT Refundable!!

T46335HR 28-31 Price Ea. \$ 28.75

WARNING!!!

If your dowel pins start bending DO NOT go any further with this tool. These dowels are made from a hardened steel but NOT case hardened. The manufacturer has issued a warning that if a case hardened or heat treated steel was used, it could very well explode or splinter under such pressure, and possibly do bodily harm. I suggest trying penetrating oil, but if that doesn't work, then take a fine drill bit and try drilling at least halfway through the pin. Then use the removing tool.

Mike's "A" FORD-ABLE Parts

Closed Car Door Hinges

The hinge pin holes are drilled, but the body mounting holes are **NOT** drilled. Unfinished Cast Bronze.

GAS TANK

Specifications:

Steel thickness: .049" to .051" (terne plated)
Capacity: 28-29, 10 gal.; 30-31, 11 gal.

The following new parts are required to complete a restoration of your Gas Tank. This is only a guide - do not assume that this is all that is needed, all other parts need to be thoroughly checked.

1. Gas Tank Sealer - AGTS
2. Fuel Tank Welt Anti-Squeak - A9006
3. Gas Tank Filler Screen - A9020
4. Fuel Shut Off - A9189A or B
5. Fuel Shut Off Filter - A9193T or A9194B
6. Filter in Gas Bowl - A9156
7. Gas Lines - A9230A, B, A9230AV, BV, A9240B, C
8. Gas Gauge Tool - T9300
9. Gas Gauge Rebuilding Kit - A9320S
10. Gas Gauge Nut - A9326 - Inner - A9330 - Outer
11. Intake and Exhaust Manifold Gaskets - A9433F, A9433, A9433C, A9433C2
12. Carb Kit - A9595Z, B or T
13. Grose Jet - A9564GJZ, GJT or B9564Z
14. Choke Rod Assembly - A9700B or C
15. Grommet Set - A9066A or A9715/17
16. Control Rods - A9740S
17. Sediment Bowl - A9155
18. Sediment Bowl Gaskets - A9173 or N

Gas Tank Sealer

Extend the life of your old tank with this semi-elastic sealant. Seals pin holes, covers rust flakes, not affected by alcohol. Cannot be shipped by air. For best results, have the gas tank chemically cleaned and rust free before using this sealer.

AGTS 28-31 Price Quart \$ 25.00

Gas Tank Etching

Remove light rust inside of your gas tank before you put in the AGTS Gas Tank Sealer. This will leave a gray phosphate coating. 16 Oz.

A9002E 28-31 Price Each \$ 11.75

Cowl Welt

This roll of 1/8" black beading is used when you mount your gas tank.

'28-'29 Across back edge of tank and down sides of cowl.

'30-'31 Around back edge and sides.

Paint lower body color.

A3405CW 28-31 10 Ft. Roll Price Roll \$ 3.75

Gas Tank Anti-Squeak Welt

This 1/16" x 12 ft. woven fabric welt is used as a buffer around the gas tank to eliminate rattles. The early models use it all the way around the tank; the later models on the front and back edges.

A9006 28-31 Price Roll \$ 3.60

Gas Tank Filler Screen

This tab-style screen sits in the neck of the gas tank. Does not fit early threaded style. See page 441 of Service Bulletins for correct installation.

These will **not** work with tool - T9021 - below.

A9020 28-31 Price Ea. \$ 10.45

Gas Tank Filler Screen Tool

A great tool to help with the installation or removal of the Filler Screen (A9020). Place the tool in the filler neck notches and use a socket wrench and extension.

For original Screens Only.

T9021 28-31 Price Ea. \$ 3.75

Gas Tank Protector

Lay this lined naugahyde on top of the tank when filling to protect your finish.

A9030P 28-31 Price Ea. \$ 21.95

Mike's "A" FORD-ABLE Parts

Speedometer Calibration by Wiley Higgins

While driving a Model A, the optimum driving speed is a steady 45 MPH. This speed moves you along at a good pace and helps keep you out of the way of most traffic, while not putting too much strain on your engine. If your Model A won't hold a steady 45 M.p.h., something needs to be corrected.

First of all, a Model A Speedometer usually is *not accurate* after over 60 years of use, even it has been rebuilt by a professional. Also, tire size and rear-end ratio have an effect. So, your speedometer may indicate a different speed than you are actually travelling down the road - either faster or slower.

The best method of determining the **actual speed** you are travelling is to **conduct a time/distance check**. Here's how:

1. Select a reasonably **straight and level stretch** of highway.
2. Use your digital or sweep second hand watch as a stop watch.
3. As you pass any **mile post** (remember, straight and level is best), start the stop watch or note the seconds on the sweep second hand.
4. **Hold the same, steady speed for one mile** to the *next* mile post, and **note how many seconds have elapsed.**
5. **Consult the chart below to determine your true speed over the ground.**
6. **Repeat steps 1. through 5.** above two or three times and **get an average.**
7. Adjust your speed over the ground slower or faster if you have a speedometer error to hold a steady 45 M.p.h.. For example, it takes **80 seconds** to go **1 mile** if your *true* ground speed is **45 M.p.h..**

SEC (1 Mile)	MPH	SEC (1 Mile)	MPH
102	35.3	86	41.9
101	35.6	85	42.4
100	36.0	84	42.9
99	36.4	83	43.4
98	36.7	82	43.9
97	37.1	81	44.4
96	37.5	80	45.0
95	37.9	79	45.6
94	38.3	78	46.2
93	38.7	77	46.8
92	39.1	76	47.4
91	39.6	75	48.0
90	40.0	74	48.7
89	40.5	73	49.3
88	40.9	72	50.0
87	41.4		

IT MEASURES YOUR MILES

Speedometer Trip Stem

Nickel plated, knurled stem that pulls out on the Oval Speedo to set the odometer. Complete stem assembly with gear and retaining washer.

A17267 28 - Mid 1930 Price Set \$ 20.00

Speedometer Grommet

This speedometer grommet fits in the firewall for the cable to go through, next to the choke rod.

A14567 28-31 Price Ea. \$ 0.75

Gas Tank Speedometer Cable Grommet

Mike's "A" FORD-ABLE Parts

Water Inlet - Speedo Cable & Cut-out Wire Clip

This wire clip was used in several places by Ford: for the water inlet and speedometer cable inside the firewall for all years; for the cutout wire on the firewall in 30-31.

A14577A 28-31

Price Ea. \$ 1.50

Firewall Wire Clip Bolt (Round)

This is the correct round head screw with lock washer to attach the wire clip to the firewall.

Paint Black. Use with A14577A above & B - Page Gen. 196.

A14577BR 28-31 12/24" x 1/2" screw & l.w.

Price Set/2 \$ 0.40

Speedometer Cables

Due to the fact that there are several manufacturers of interior cables and they are all being reproduced in different lengths, thereby causing a lot of confusion and problems we are no longer stock inner cables seperatly.

Replace your worn out speedometer cable with one of these new complete assemblies with steel ends. Mike's note: The early Ford cable was 1/2" in diameter while the latter was 1/4". The early gear on the drive shaft key has a round cable end with key up. The '30-'31 accepts the square cable.

Speedo End Square - Drive end Keyed

A17260AU 1928 - June '30

USA (oval)
Price Ea. \$ 33.95

Cowl Light Wire Support

Or you can use three of these to hold the wires for the cowl lights and the wipers.

A14593A 28-29 Price Ea. \$ 2.25

Turn Signal Kit (6 Volt)

BE SAFE. Signal Stat. Add this complete turn signal kit directly to your tail lights. Kit includes the switch, fuse, flasher, flasher socket and complete instructions. Cowl conversion kit works with this one. If you do not have cowl lights you will need to install front turn signal lights of some sort. Comes with instructions. 11 Piece Set. For more turn signals items see our Turn Signal Section on **Page Sedan 72.**

A13310A 28-31 Price Set/11 \$ 58.95

Turn Signal Flasher

6-Volt flashers are hard to find; you'll need this if you have added turn signals to your A.

A13311 28-31 Price Ea. \$ 5.25

Complete Turn Signal Kit (6 or 12 Volt + or -)

Now you can have super bright Amber LED turn signals for your "A"! Kit includes super bright LED turn signals, stainless steel brackets, controller and wire. The easy hookup connects to 6 Volt OR 12 Volt cars with negative or positive ground without even flipping a switch. The kit features all solid state components (there are no turn signal flashers to wear out and the LED's will last for over 25 years!). The whole kit is bolted on so you don't have to permanently modify your car. Slim line turn signals mount to bumper clamp bolts and have a one wire hook up. Each turn signal is individually short circuit protected so if one wire shorts to the chassis, only that one light won't come on. Eliminate the short and the turn signal will work again. Also has a hazard light function and is backed by a one year manufacturer's warranty. 20 Piece Set.

A13311A 28-31 Price Kit/20 \$ 169.95

SEAT PARTS

Seat Adjuster Installation

Seat Adjuster Bolt & Nut Assembly

This style used on the '29-'31 Murray Fordor to adjust the front seat. Used on the 155A & C, 165A & C. 19 1/16" Long.

A63534AR 29-31 Price Set \$ 69.95

Seat Adjuster Bolt

This special threaded bolt is used to adjust the screw-type adjustable seat, by moving it backwards or forwards. The seat adjuster nut (A47832N) goes on this. Original Screws will not fit repro. nuts, its best to replace the bolt and nut. 5 1/2" Long.

Used on:
'29-'31 Fordor and Town Sedans

A47832S 30-31 Price Ea. \$ 18.95

Seat Adjuster Nut

This is the special round nut. Used on: '29-'31 Fordor and Town Sedans. This nut will only fit the repro screw-A47832S.

A47832N 30-31 Price Ea. \$ 12.95

Seat Adjuster Washer

This washer goes on the head of the seat adjuster bolt before the bolt goes through the bracket at the front of the seat. This washer is made of nylon for smoother operation, not brass like the original.

Used with the A47832S.

A47835 30-31

Price Ea. \$ 1.80

Seat Adjuster Knob

This chrome-plated round knurled knob is for the front seat adjustment.

Used on:
'29-'31 Fordors
'29-'31 Town Sedan

A47836 29-31 Price Ea. \$ 14.35

Seat Adjuster Handle

This brass chrome-plated style handle was used on:

1931 Slant Windshield Fordors,
1931 Deluxe Tudors

A47836B 30-31 Price Ea. \$ 12.95

Seat Adjuster Handle Screw

This screw holds the round seat adjustment knob A47836 to the seat adjustment bolt A47832S.

A47836MB 30-31

Price Ea. \$ 0.70

Seat Adjuster Bracket

Mounts onto the bottom of the wood frame. This holds the seat adjusting screw in place, so that seat can be moved back and forth. Used on some 1930 - Mid 1931 Town Sedans and Fordors.

A47837 1930 - Mid 1931 Price Ea. \$ 26.95

SEDAN

Mike's "A" FORD-ABLE Parts

A47836B Seat Adjuster Installation

Seat Adjuster Bracket and Nut

An "L" shaped bracket that is located on the body cross member and extends up the front seat frame. A47832N is installed. For the screw type seat adjuster. Used on some 1930 to mid 1931 Fords.

A47838 1930 - Mid 1931 Price Set \$ 51.95

Seat Adjuster

A saw-tooth style seat adjuster. Mounting bracket is at the front of the seat. Mounting bracket to the floor is not included. See A70126, A70126C. Used on: 1930 - '31 Fordor

A70124 1931 Price Ea. \$ 63.00

Seat Adjuster Spring

This 6" spring is used with the saw-tooth style adjuster - A70124.

A70124L 1931 Price Ea. \$ 4.40

Seat Stop Block

Attach this block to the bottom of the wood that the cushion spring is upholstered to. When the spring is in position the block sits just behind the front edge of the seat riser to keep the cushion in place. Used on several '28 - '29 Tudor and Fordor Rear Cushions.

RAR205 28-29 Price Ea. \$ 10.50

Front Seat Rear Adj. Bracket Guide

This bracket was used on the Front Seat of the Murray Town Sedan Only.

RAR251 28-31 Price Pair \$ 13.95

Seat Leg

Use these brackets for the front bucket seats to pivot on. These mount to the floor of Tudor Sedans. Cast "S" shaped stud with an eye opening on the seat end. Threaded on the opposite end and goes through the cross channel to secure to the body. Need 2 per seat.

A47902 28-31 Price Ea. \$ 16.50

Tudor Seat Leg - Offset

These are the same as the A47902, but have an extra 2" offset in them to give you more leg room on your Tudor Sedan.

A47902EXT 28-31 Price Pair \$ 36.00

Seat Hardware Kit

One of these kits does one bucket seat on your Tudor. Includes pivot brackets and seat cups.

This is the replacement set. For the original see A47902.

A47903S 28-31 Price Kit \$ 8.00

Seat Rest Cups

Mike has these cups separately if that's all you need. They go on the rear of the front bucket seat assembly.

A47903 28-31 Price Ea. \$ 2.00

Seat Adjuster Kit

These replace the front seat legs on the Tudor Sedan and enables the seats to be adjusted forward and backwards, as well as up and down. Gives you approx. 6" more leg room. 1 Kit is enough for 1 seat.

A47904 28-31 Price Set \$ 124.95

Tudor Seat Pivot Pin

This pin connects the seat to the pivot stud. Includes cotter pin. Need 2 sets per seat. One set has one Pivot Pin and One cotter Pin.

A90538 28-31 Price Set/2 \$ 0.90

Seat Tacking Strip

Rivets are included to mount this strip of wood onto the backrest frame of your Tudor Sedan front buckets. Tacks hold the upholstery to this strip.

A47905 28-31 Price Each \$ 4.95

Mike's "A" FORD-ABLE Parts

Seat Latch Assembly

This is the bracket for the saw-tooth style seat adjuster. Mount it to the floor under the front of the seat. Used on **Deluxe Tudor** and **Slant Windshields**.

A70126 1931 Price Ea. \$ 28.00

Front Seat Swivel Bracket

Passenger Side for Late **1931 Tudor**, made from heavy gauge steel, to original specs. Original prints for seat parts specify black enamel for some components and lacquer to match trim on others.

A57697 1931 Price Pair \$ 15.90

Seat Spring Clip

This clip holds the adjuster spring on the saw-tooth seat adjuster. It screws into the back bottom edge of the front seat assemblies. Used on **Deluxe Tudor**.

A70126C 1931 Price Ea. \$ 11.00

Seat Cushion Dowel

Holds seat cushion onto the body subrail so that cushion (springs) will not move. Need 2 per seat.

A121D 28-31 Price Ea. \$ 10.25

Slant Windshield Backrest Clips

These clips attach to the body using the same bolts that bolt the rear center body section in place towards the bottom. They keep the bottom of the rear backrest in place. Used on **Slant Windshield Fordor Sedans**.

RAR204 1931 Price Pair \$ 13.95

Rear Seat Mounting Clip Set

A complete set of clips to mount the rear seat on a **1931 Slant Windshield Town Sedan**.

RAR229 1931 Price Set/4 \$ 16.95

Seat Track Assembly

This is the slide track with 4 seat studs for the **'30-'31 Fordors**. Read Vol. 3 How To Restore.

A84841BR 30-31 Price Set/4 \$ 57.60

Seat Track Assembly

This is the slide track with 3 seat studs for the **'30-'31 Deluxe Tudor Sedan**.

A84842BR 30-31 Price Set/4 \$ 57.60

Seat Armrest Kit

This kit gives you both back seat side armrests for the **Fordor Sedans**.

A56666PR 28-34 Price Kit \$ 76.65

Seat Armrest Brackets

This pivot bracket is used to mount the center armrest on the **Fordor Sedans**.

A56642BR 28-31 Price Kit \$ 69.95

Rear Floor Pan Spring Hump Cover

Originally Ford used roof material to cover the hump on the rear floor pan. Used on: **1931 Town Sedan**.

A85456C 1931 Price Ea. \$ 4.50

Rear Floor Pan Spring Hump Straps

This 4 piece set of metal straps hold the cover **A85456C** in place over the spring hump.

RAR220 1931 Price Set/4 \$ 23.45
